

SERIOUS WRECK ON THE C. & P.

Collision of Bellaire Accommodation and Work Train in Allegheny.

ELEVEN PASSENGERS HURT

Among the Number Being a Wells-ville Lady—Cars Were Smashed And Piled Up in Great Confusion. Passengers Wildly Excited.

The Bellaire accommodation struck a relief work train in the Allegheny yards last evening, occasioning the serious injury of 11 persons, among whom was Mrs. Barney Householder, of Wellsville. She received a bad cut on the face and several cuts and bruises about her head and back.

Mrs. Householder is the proprietress of a general notion store on lower Main street, Wellsville, and was in Pittsburg yesterday buying a stock of spring grades. When seen this morning by a reporter she did not present the appearance of one who had so narrowly escaped death. Her wounds had been dressed and although a little nervous from the excitement which always follows a wreck of the kind she was apparently in her usual health.

The wreck was a most exciting one. As a result of it the down passenger train due here at 7:33, was over three hours late.

The following were injured:

MRS. B. F. HOUSEHOLDER, of Wells-ville, cut and seriously bruised.

MRS. J. C. BUTLER, Ontario street, Allegheny, bruised about the side.

J. W. MOORE, yardmaster, resides at 327 Calhoun avenue, Allegheny, cut about the face and head.

J. F. MURRAY, yard conductor, 16 Cal-ifornia avenue, Allegheny, right arm sprained.

R. M. ABEL, engineer of the Bellaire accommodation; home in Bellaire; back injured and cut about the head.

W. SWARTZ, conductor of the accom-mo-dation; left arm bruised and cut about the body.

D. H. MAYES, fireman of the accommo-dation; resides at Bellaire; injured about the back.

WILLIAM EMMETT, fireman of the engine of the relief train; resides in lower Allegheny; left ankle sprained.

M. R. OSBOURNE, brakeman, of 1218 Washington avenue, Allegheny; face bruised.

H. A. NYE, brakeman on the accom-mo-dation; resides at 217 Smithton avenue, Allegheny; cut above the head and back and seriously bruised on the left side.

R. SMITH, car inspector; resides in lower Allegheny; cut about the face.

Most of the injured were removed to their homes in carriages, while others living more distant were sent home on trains.

The Bellaire accommodation train left the Ft. Wayne station in Allegheny at 5:55 o'clock, city time. A few minutes later it struck the work train, consisting of an engine and two cars, which was also going west and which was just entering the main track upon which the passenger train was running. The passenger engine, going at the rate of 35 miles an hour, struck the other engine and the sides of the coaches struck those of the work train.

When the cars crashed together they were raised up and derailed. The sides of the cars attached to the work train were completely stove in, and the passenger train, except one car, was almost completely ruined. The engine of the passenger train was battered up and was overturned. The other locomotive was also rendered almost useless.

The accommodation train carried about 150 passengers. Only two pas-sengers were seriously hurt, though others were slightly bruised. The re-sponsibility for the wreck has not been fixed. It is claimed the work train had the right of way.

The cab of the passenger engine was almost completely torn off, and En-gineer Abel only escaped fatal injur-ies by jumping when his engine went over on its side. Fireman Mays was less fortunate. When he felt the en-gine turning over he prepared to jump, but before he could move to save himself he was thrown out over the yard tracks for a distance of about 50 feet and had his back badly in-jured.

When the engine turned over on its

side the accommodation was brought to a sudden stop and the panic-stricken passengers, some of whom were cut by flying glass, were taken from the cars by the yard employees. Many of the passengers suffered considerably from shock and had to be attended to by the physicians who were called to the scene of the wreck. As soon as another train could be made up it was sent to the Manchester yards and the passengers sent on their way.

Besides wrecking the coach of the work train, the front trucks of the tender on the passenger were completely torn out from under the tender and the piston rod on the express engine, with the driving arm, was torn completely off the engine. The em-ployes' coach was badly splintered and the tracks for about 100 feet were torn up.

On the wrecked train were several persons from East Liverpool. They were shaken up but none injured. Mrs. William Patterson, of the East End, was on the train and also Alfred Meanor.

PROJECT IS FAVORED

PHOENIX CLUB'S SCHEME EX-CITES MUCH INTEREST.

Members of Other Clubs Express a Desire to See the Proposed Home a Reality.

The project which has been taken up by the Phoenix club to purchase the post office building and enlarge the structure for the accommodation of other similar local organizations has occasioned considerable com-ment.

Many members of almost every club in the city heartily endorse the scheme and express a desire to see it successfully carried through. The project for the present, at least, is left to the decision of the members of the Phoenix club, who are alone negotiat-ing for the purchase of the post office building.

It is the opinion of a number of the interested ones that an equally desir-able location can be secured with a smaller outlay of capital than is re-quired in the purchase of the build-ing now being sought, while others think that the clubs should share equally in the cost and erect a new building.

However, there is little doubt in case the Phoenix boys carry out their ideas as now in contemplation that those of the other interested clubs will quickly "get in the swim" and lend their cooperation.

OIL PROSPECTS

ARE EXCELLENT ON THE LEASE OF C. A. SMITH.

Most Encouraging Indications Which Lend Impetus to Turkeyfoot Field Work.

C. A. Smith and James Flood re-turned from the Turkeyfoot oil field last evening, where they located a well on Mr. Smith's lease.

Arrangements were made to begin drilling early next week, and the pros-pects seem bright for a good producer.

A well being drilled on the Ramsay farm of the Miller & Murray lease be-gan to flow at a rapid rate yester-day, while but two bits in the sand. The oil rose for a distance of 575 feet and caused a considerable amount of inconvenience and some apprehension. Work was suspended at once and the drillers set about making changes in the apparatus without delay.

The engine was moved farther away from the well today, and it is thought everything will be in readi-ness by morning to resume the drill-ing. The work will be continued until the bottom of the sand is reached.

Work in the Smith's Ferry field is going steadily forward. Three firms, the Forrest Oil company, Kitchlow & Kirk and the Gaylards, have located wells, but to the present no favorable indications have been noted.

POLICE OFFICER FIRED

The New Brighton Copper Who Used His Mace on a Watchman Loses His Job.

New Brighton, January 10.—As a result of the fight which occurred here Wednesday night between Watchman Pat McGhee and Policeman Nowling, in which the latter used his mace with fearful effect, a meeting of the borough police committee was called yesterday and Nowling dis-mitted from the police force. Henry H. Deltrich will succeed him.

Nowling is now under bail to an-swer to the charge of felonious as-sault and shooting with intent to maim and disfigure McGhee.

THE GAME LAW IS A FAILURE

Deputy Game Warden Wilfing, of Wellsville, Says It Is Poor-ly Observed.

RECORD OF THE PAST YEAR

In Columbiana County Was Two Ar-rests And Two Convictions—The Provisions of the Statutes Not Re-garded As Strong Enough.

Columbus, Jan. 10.—(Special)—C. L. Wilfing, of Wellsville, deputy game warden of Columbiana county, has fil-ed his annual report with Chief War-den Reutinger, of the state game and fish commission. It shows that during the year five violations of the game laws were reported, two arrests were made and two convictions secured. The fines collected amounted to \$34. Two violations of the fish laws were reported, but no arrests were made.

Deputy Wilfing reported that the laws were not generally observed, and attributed this to the fact that violat-ors were fully aware of the laxity of the statutes and the difficulty to secure convictions under them. He declared they are weak in that they are not sufficiently binding. He traveled 35 miles during the year in the pulpit of his official duties, and reported quail as being plentiful during the open sea-son and scarce prior to that time.

Pheasant was scarce and rabbits and squirrel were not as numerous as in former years. The annual report of the game and fish commission will probably be submitted to the governor this week. It will embody the new bill which is designed to correct the idiosyncrasies of the present game laws. Senator Archer helped to draft the new bill and it is expected that he will introduce it in the senate.

BOTHERED BY TRAMPS

Northside Residents Ask the Police to Apprehend the Vagrants.

A number of residents of the North-side have complained at different times at police headquarters that tramps have been annoying them. One or two of the roadsters, it is claimed, have been begging food and clothing for several days, and on one or two occasions frightened women.

The police have made frequent in-vestigations in the infected district, but have been unable as yet to locate any of the troublesome tramps. It is thought they are members of a gang that has been holding out in the Klon-dike, in the East End.

However, there have been no re-ports of any serious depredations having been committed by the tour-ists.

RELEASE OF MISS STONE

London Has Advices That It Will Be Effected in a Few Hours.

London, January 10.—(Special)—The release of Miss Ellen M. Stone, the missionary who has been held captive since last September, is be-lieved to be a question of only a few hours.

An official telegram received here this afternoon states that dispatches from Constantinople received after midday today say that the release of Miss Stone will soon be effected.

TRUST COMPANY ASSIGNS

A Cleveland Concern Puts Its Affairs Into the Hands of an Assignee.

Cleveland, January 10.—(Special)—The Euclid Avenue Trust and Sav-ings company made an assignment to-day to Attorney Frank H. Grinn.

Conkle Issues a Challenge.

Representatives of Conkle, the Sa-lem wrestler, were in the city during the holidays and challenged a local wrestler, but as yet neither Conkle nor his friends have been heard from, although the East Liverpool man gave a favorable reply. The latter is will-ing to meet any other wrestler of 136 pounds.

Sold Out for \$1,000.

Lisbon, January 10.—(Special)—D. B. Douthett, of Wilkinsburg, Pa., who purchased the Helman news stand on January 1, sold this morning to Bert Burns, of this city. Consideration \$1,000.

VISIONS OF RICHES FOR INVENTORS

Wellsville Men Have Refused \$20,-000 For a Device For Railroad.

LOOK FOR A FORTUNE

The Invention a Nut Lock for Steel Rails Which Is Claimed to Be One of the Best Devices of the Age. Patent Applied For.

Messrs. Hugh Anderson and C. C. Lawson, life long residents of Wells-ville, are interested in a nut lock in-vention, which, it is expected, will be the means of enriching them to the amount of many thousands of dol-lars. The lock, which is to be used on nuts that are applied to braces by which steel rails on railroads are made secure, is the invention of Mr. Anderson, who perfected it last No-vember after four years of unremit-ting study and work.

Mr. Anderson not being able to push his invention appealed to Mr. Law-son for assistance, and they have re-ceived very encouraging reports from it. A patent was applied for Decem-ber 1 and they expect a notification of its being granted by the patent of-fice at Washington in a few days. Al-though the lock in appearance is of simple mechanism, no one but an adept in machinery could well de-scribe it. Mr. Lawson, when asked for a statement in regard to the in-vention, said:

"It is pronounced by eminent ma-chinists of the country to be the greatest invention of the age. To the railroads of the world it will be in-valuable. Mr. Anderson and I have been offered \$20,000 for it, but did not even consider the offer. We expect to be made immensely rich through the sale of the invention, because within a few years the 200,000 miles of steel rails laid within the bound-aries of the United States will be connected with bolts on which are our locks.

"The bolt with the lock and washer weighs one and one-quarter pounds and will cost only 3 1-2 cents per pound. By request of the Pennsylvania and Pittsburg and Lake Erie rail-roads we have given them a number of the locks which are to be tested on their roads for six months. If they prove to be a success these compan-ies have agreed to adopt them. There are a few of the locks under a test at the West End shops, and the mas-ter mechanic thinks it a perfect de-vice."

JACKSON-BAXLEY

Quiet Marriage of Well Known Young People at the County Seat.

Lisbon, January 10.—(Special)—George Clinton Baxley and Miss Eva L. Jackson were married last evening at the home of the bride's father on the Canton road. The wedding was a surprise to the friends of both young people. None but relatives were present. The ceremony was perform-ed by Rev. George Fowler.

The bride is the daughter of Mail Clerk Daniel H. Jackson and is an ac-complished music teacher. Mr. Bax-ley is a young man who has recently been taking a course in stenography and has been appointed as clerk to the judiciary committee in the state senate.

CONNER-BUCHER

Well Known Young People United in Marriage By Rev. J. W. Gorrell.

Too well known young people were married last evening at 8:30 by Rev. J. W. Gorrell at the parsonage of the Christian church. They were William Bucher, of the Calcutta road, and Miss Sophia Conner, of Fourth street. Miss Conner is the organist of the Chris-tian church Sunday school.

The couple went at once to their new home on Orchard street in the McKinnon addition.

EXCELLENT CONCERT

In the High School Course Given By the Boston Ladies' Orchestra.

The entertainment in the high school course last evening was one that was thoroughly enjoyed by the large audience present. The Boston Ladies' Symphony orchestra, under the leadership of Frank W. McKee,

with Carl Crance, of New York, basso soloist, gave a concert of much excellence. The ladies look well and play better. The program of 10 num-bers, considerably lengthened by en-cores, included both classical and pop-ular airs.

Particularly pleasing were the solo-ists—Miss E. Ralphina Parsons, trom-bone; Miss Florence E. Beckett, flute, and Miss Mabel Beaman McKee, viol-in. Miss McKee was especially good. Carl Crance, the sole vocalist, was down for only one number, but he had to sing three selections ere the au-dience, even then reluctantly, allowed him to go. He has a bass voice of great strength and compass and sings without apparent effort. His was by far the most satisfactory feature of a performance in which all the artists acquitted themselves most agree-ably. His rendition of the "Beware" song from "Robin Hood" was of strik-ing excellence.

The orchestra was much better than that which appeared last year, and Prof. Rayman is to be congratulated on securing such an excellent enter-tainment.

A BAPTIST CHURCH

EFFORT TO RAISE MONEY FOR LOT AND BUILDING.

Pastor Owens Made Financial Agent And at Work With That End in View.

There is now being put forth an effort to raise money for a lot and building for the First Baptist church. The hall in which the meetings have been held is inadequate to meet the needs of the growing church organ-ized a little over a year ago.

By recent action of the church, Mr. Oscar L. Owens was made finan-cial agent and will superintend the work of raising money for the enter-prise.

The members of the church will do what they can and an opportunity will also be given to all the people of East Liverpool to contribute to this worthy object. Cash subscriptions will be re-ceived at any time and those desir-ing to make monthly or annual pay-ments may secure pledge blanks by applying to the financial agent.

K. OF C. MEETING

At Zanesville Next Sunday Will Be Attended By Local Knights.

A number of the members of the local lodge, Knights of Columbus, will go to Zanesville next Sunday, where the first, second and third degrees will be conferred upon a large class of elig-ible members.

An attempt was made to induce the railroad companies to run special trains to Zanesville for the occasion, but it was impossible to do so. Had the attempt been successful a very large crowd would have attended. As it is, only a few intend going from the several towns along the river.

FOR POSTAL POSITIONS

An Examination of Candidates Will Be Held Here on January 29.

An examination for the positions of postoffice carriers and clerks will be held in this city January 29. The ex-amination will consist of spelling, arithmetic, letter writing, penmanship, copying from plain copy, geography of the United States and reading ad-dresses.

The age of limitation is from 18 to 45 years. Applications can be made to John E. McClure, secretary of the board, up to and including January 25 and all information will be furnished by him.

INTEREST CONTINUES

In the Meetings at the First Metho-dist Episcopal Church.

A very large congregation assem-bled last night at the M. E. church, manifesting increasing interest. Dr. Clark Crawford took as his text, "Now."

When the invitation was extended five persons went forward. Four of them professed conversion.

HEARING WAS PRIVATE

Witnesses Examined in the Case of Burgess Vs. West End Pot-tery Company.

Judge W. W. Hole, of the common pleas court, was in the city today. At the city hall several witnesses were heard in the case of William Burgess vs. the West End Pottery company. The hearing was private, even Mayor Davidson being excluded.

GAS EXPLOSION AT CHESTER MILL

Clark Vermillion Blown Fifteen Feet and Most Painfully Injured.

HEAD AND FACE SCORCHED

But Dangerous Hurts Were Fortunate-ly Avoided—The Accident of a Peculiar Nature And Entirely Un-expected—Nobody Else Hurt.

As a result of a terrible explosion of gas in the mills of the American Tin Plate company in Chester early this morning, Clark J. Vermillion was painfully injured. He has been em-ployed as a "pair heater" in the mills and was in the discharge of his duties when the accident occurred. He was working at the mouth of one of the large furnaces and without thinking of the possible results, he too sudden-ly raised a damper which controls the fire in the furnace and the explosion followed.

The door of the furnace was blown violently open and an immense vol-ume of gas and smoke belched forth, striking him full in the face and pre-cipitating him backward to a dis-tance of 15 feet. In a badly crippled condition he was removed from the mill to his home, where a physician was summoned. Upon an examination it was found that his injuries, al-though painful, were not dangerous. His face and head and parts of his body were terribly burned. No one else was near at the time.

Mr. Vermillion has been a resident of the city for years. Until recently he was agent for the Reymann Brew-ing company, of Wheeling.

A VERY CLOSE CALL

Passenger Train and a Loaded Team Came Near Col-liding.

When the 4:06 passenger train pull-ed in from the west last evening it ap-proached the depot at a rapid rate. A dray of casks was being hauled from the Sevres China company and the driver had a narrow escape from get-ting his team, if not himself, in a frightful collision. The horses had stopped on the track, but were pulled back and slightly turned, the train rub-bing the side of one of the animals. Fortunately there was no injury done. At the Broadway crossing, notwith-standing the fact that there are gates and a company tower man, there are close calls from serious accident al-most daily.

State Farmers Will Meet

The state farmers' institute and the annual meeting of the Ohio state board of agriculture, will take place at Columbus on January 14, 15 and 16. The exercises will be interesting and instructive to all persons who follow agriculture for a living. A number of farmers from this locality will attend.

Tenants Are Without Heat.

The hot water heating system at the J. C. Thompson building sprung a leak yesterday and as a result the tenants are compelled to do without heat today. Workmen began early this morning on the work of repairing the defect.

Commissioner Appointed.

Lisbon, January 10.—(Special)—A commission has been issued to William Hill to read and explain to Helena Wheeler, widow of John E. Wheeler, of Liverpool township, the provision of her husband's will.

Special Sermon.

Rev. J. G. Reinartz, pastor of St. John's Evangelical church, will preach a special sermon Sunday evening on the subject: "The Gospel in the Stars."

Valuable Horse Dies.

A horse valued at \$150, owned by Liveryman Miller, died last night.

Child Scalded — A four-year-old daughter of Edward Eissey, of Sheri-dan avenue, was severely scalded about the neck and face last evening by accidentally overturning a pan of water which was standing on a stove. Mr. Eissey recently moved here from Bellaire and about six months ago the same child that is now suffering from its burns met with a similar ac-cident.

The Evening News Review is the largest and newest East Liverpool paper.

EAST END

MISSIONARY WORK

Interestingly Discussed by Second Presbyterian Church Ladies. Encouraging Reports.

A most interesting missionary meeting was held by the ladies of the Second Presbyterian church at the home of the Mesdames R. and W. E. Baird, on Mulberry street, yesterday afternoon. It was the first session of the new year and largely attended.

The general subject of the home field was "A Century of Home Missions." The subject on the foreign branch was "The Open Door." Papers that were instructive and interesting were read and discussed. Reports from the different committees exhibited gratifying progress by the society which has grown in membership and effective zeal. At the conclusion of the exercises an hour was spent in social interchange and a substantial luncheon was a happy feature of the meeting.

FELL IN A HOLE

Roy Myers and His Younger Brother Narrowly Escape Serious Injury.

An accident befell Roy Myers, aged 17, and his brother, two years younger, on St. George street last evening. They had dug a vault 15 feet deep, and had reached the top in climbing out when the younger lad lost his balance. Roy Myers endeavored to rescue him from a dangerous fall when both tumbled to the bottom. The elder of the two struck on his head and was rendered insensible. Severe bruises were sustained by each, and neither could get out until neighbors heard calls for assistance and helped them to the top.

In bounding against the wall of the excavation the force of the fall was broken, else a fatality might have happened.

Dramatic Club Progressing.

The East End Dramatic club is getting along nicely. It is the intention to form a repertoire of operatic pieces. So far seven young men and five ladies are in the caste. They will hold a meeting Tuesday evening in Chambers' hall for further perfection of the club.

Forming a Football Team.

An association football team is being organized by operatives of Laughlin No. 2. Daily practice games are being held and a lineup of crack players can soon be announced. It is the desire of the club to go against other local elevens.

P. H. C. Meeting.

At a meeting of the East End Protected Home circle held this week several members were admitted to the organization. It was decided to hold sessions twice a month. A special meeting will be held in a few days.

EAST END AFFAIRS.

M. J. Kerr is laid up with a severe attack of rheumatism.

The week of prayer has been fraught with very interesting meetings in all of the East End churches. There was a large attendance last evening at the Columbian park dance. Several couples were present from Wellsville.

Street work, the building of new cinder walks, and the filling of holes has been done by the city in the Klondike during the week.

It is said that scarcely a vacant lot will exist in "the Orchard," at the extremity of St. George street, by the end of a few months, as all of the owners contemplate the erection of dwellings.

Delay has occurred in the construction of the Erie street M. E. parsonage. A small amount of excavating was done a few weeks since, but work will perhaps not be actively begun before spring.

Men's \$4 box calf enamels, during this sale, \$3.40.

TROLLEY CAR TO MT. SINAI

American System of Rapid Transit Rapidly Winning Its Way In the Orient.

Cleveland, Jan. 10.—The trolley car is about to displace the patient donkey as a means of locomotion in the Orient. A company of Cleveland and Chicago capitalists, incorporated as the Cleveland Construction company, has been successful in negotiating, through J. F. Spanier, of Rome, Italy, for concessions for electric lines from Cairo, Egypt, to Mt. Sinai, and thence along the coast of the Red sea through Syria and Arabia to Macca. A branch is to connect Damascus with the system at Mt. Sinai.

It is argued that the business during the period of a single Mohammedan pilgrimage to Mecca, whether it is the pious duty of every Mohammedan to go, will pay a handsome profit on the cost of construction. Letters received from Senor Spanier say the Sultan of Turkey has gained the necessary concessions for the system.

Already trolley cars are running from Jerusalem to Galilee. The Cleveland Construction company is working under an agreement to finance all undertakings if the constructions contracts are awarded to it.

REMOVED TO PEST HOUSE

Smallpox Patients at Mingo in New Quarters—Health Board Act. ive at Brilliant.

Mingo, January 10.—The three smallpox patients at the hotel here were removed to the pesthouse yesterday and are living on the fat of the land. Those in the hotel who have been successfully vaccinated will be released after being newly clothed and all others moved to a house of detention.

The board of health of Brilliant met last night and passed a resolution prohibiting the citizens of Mingo from attending entertainments of all kinds in the village of Brilliant during the continuance of similar action taken by the board of health of Mingo, and also called off a public dance which was to have taken place this evening.

BEAVER MAN IN TROUBLE

Pleads Guilty to Forgery and Obtaining Money Under False Pretenses.

Beaver, Pa., Jan. 10.—John Straub, a prominent citizen, charged by Cashier John C. Campbell, of the Rochester National bank with forgery and obtaining money under false pretense, was given a hearing before Justice Cargo last night where he pleaded guilty and was taken to jail to await the action of the grand jury.

A warrant was also ordered for the arrest of a man named Burdick, who is alleged to have been implicated in the affair.

Charged With Killing.

Youngstown, January 10.—Joseph Ott, who is charged by John A. Wilson with causing the death of his father, Andrew Wilson, aged 75, by hitting him on the head with a poker, was arrested on the charge of assault. He was later released on a bond of \$200.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James' Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Alvin H. Bulger, Druggist.

CANAL BILL PASSED

In the House, Almost Unanimously--Only Two Votes Against It.

ALL AMENDMENTS REJECTED.

During Debate, Preceding Final Vote, Hepburn and Cannon Had Controversy--Some Features of the Measure--Cost Fixed at \$120,000,000.

Washington, Jan. 10.—The Hepburn Nicaragua Canal Bill passed the House late yesterday afternoon by practically a unanimous vote. Only two members out of 310 voted against it. Messrs. Fletcher (Rep.), Minnesota, and Lassiter (Dem.), Virginia, were the two voting in the negative. The opposition to committing the government to the Nicaragua route attempted to secure amendments to lodge with the President the discretionary power to purchase and complete the Panama canal, if it could be purchased for \$40,000,000. The test came on the first vote, when the advocates of an alternative route polled 102 against 170 votes.

Strength Gradually Dwindled.
At each succeeding vote their strength dwindled until Mr. Cannon, of Illinois, under whose leadership the fight was made, was unable to get the ayes and noes on a motion to recommit. All other amendments failed, and the bill passed exactly as it came from the committee. None of the votes except that on the final passage of the bill was a record vote. The debate which preceded the taking of the final vote was made memorable by a clash between Mr. Hepburn, the author of the bill, and Mr. Cannon, chairman of the Appropriation Committee. On several previous occasions they have measured swords over canal legislation. Two years ago a similar bill was passed by a vote of 224 to 36.

Some Features of the Bill.

The bill as passed yesterday authorized the President to secure from the States of Costa Rica and Nicaragua in behalf of the United States, control of such a portion of the territory belonging to said States as may be desirable and necessary on which to excavate, construct and protect a canal suitable to the wants of modern navigation and commerce, and appropriate such a sum as may be necessary to secure the control of said territory.

Section 2 authorizes the President, after securing control of the needed territory, to direct the Secretary of War to construct such canal from the Caribbean Sea at a point near Greytown, in Nicaragua, by way of Lake Nicaragua, to a point on the Pacific Ocean near Brito, and also to construct proper harbors at the termini of said canal, and to make necessary provisions for the defense of the canal and harbors.

President Can Order Surveys.

Sections 3 and 4 authorize the President to make such surveys as may be necessary, and to employ such persons in constructing the canal as may to him seem wise, and directs that in the construction of the canal the river San Juan and Lake Nicaragua shall be used as far as they are available.

Section 5 authorizes the President to guarantee to the States of Costa Rica and Nicaragua the use of the canal and harbors, upon terms to be agreed upon, for all vessels owned by said States and by citizens thereof.

\$120,000,000 Total Cost.

The last section makes a present appropriation of \$10,000,000 to carry on this work, and authorizes the Secretary of War to enter into proper contracts for material and work as may be deemed necessary therefor, such work and material to be paid for as appropriations may be made from time to time. The section fixes the aggregate cost at \$120,000,000, to be drawn from the treasury on warrants on the President.

TO REPORT COINAGE BILL.

House Committee, By Majority Vote, So Decided.

Washington, Jan. 10.—Yesterday the Committee on Coinage, Weights and Measures, by a party vote, ordered reported to the House a bill providing for the maintenance of the legal tender silver dollar at a parity with gold, and for the increase of the subsidiary silver coinage. The measure was introduced by Representative Hill, of Connecticut. It was considered last year in Congress.

The action was opposed by the Democratic members. Mr. Shafroth, of Colorado, sought to have the vote deferred one week in order that Alexander Delmar, a writer on economic subjects, might be heard. This was voted down, as were all other motions to defer action. It authorizes the coinage of subsidiary silver coin without regard to limit, and as public necessity may require. The most important feature of the bill, for the parity of gold and silver dollars, is as follows:

The Secretary of the Treasury is hereby directed to maintain at all times at parity with gold the legal tender silver dollars remaining out-

CONGRESS AND THE CUBANS

By Congressman CHARLES H. GROSVENOR of Ohio

I FAIL TO SEE THAT WE ARE UNDER OBLIGATIONS TO SHOWER BENEFITS UPON THE CUBANS AT THE EXPENSE OF OUR OWN PEOPLE. After Cuba has organized a government which is national in scope and responsible I am willing to do whatever may be wise in the way of helping the Cubans if in so doing no American industry now protected by our tariff policy is harmed. I am and will be in the future a supporter of the national policy of the administration; but, speaking for the present and independently, I see no reason to hasten to aid Cuba's commerce.

WE HAVE CERTAINLY DONE A GREAT DEAL FOR THE CUBANS, AND I DO NOT SEE THAT WE OWE THEM ANYTHING. WE RELEASED THEM FROM THEIR OPPRESSOR, AND THEY HAVE SHOWN THEMSELVES TO BE ABSOLUTELY UNGRATEFUL. THEY HAVE MANIFESTED NO SPIRIT OF APPRECIATION.

It would seem that the old Spanish hostility to us still prevails. I certainly am not in favor of doing anything in the line requested by the Cubans IF IT WILL HURT THE AMERICAN BEET SUGAR INDUSTRY. Last year we produced one-third of the beet sugar that enters into our consumption of sugars of all kinds, and there is every reason to believe that if the industry is still further protected we will eventually raise all the beet sugar sold in the United States.

standing; and to that end he is hereby directed to exchange gold for legal tender silver dollars when presented to the treasury in the sum of five dollars or any multiple thereof; and all provisions of law for the use or maintenance of the reserve fund in the treasury relating to United States notes are, in the discretion of the Secretary of the Treasury, hereby made applicable to the exchange of legal tender silver dollars.

WAS ENGINEER TO BLAME?

Smoke and Steam From Locomotives Obscure Lights in New York Tunnel.

New York, Jan. 10.—At the Grand Central station it was said yesterday that as the district attorney had commenced an investigation to determine the cause of and responsibility for the wreck in the New York Central

WILLIAM TRAVERS JEROME.

tunnel, the railroad officials had definitely postponed their investigation, and would present all the facts in their possession to the county prosecutor.

Another investigation will probably be made by President Cantor, of the borough of Manhattan. Mr. Cantor said in part yesterday: "My opinion is that if electricity had been used by the railroad the accident would not have happened. I visited the scene of the wreck at 9:30 last night. I watched the trains passing through the tunnel. The volumes of smoke from the locomotives filled the tunnel so that it was impossible to discern the lights."

In New Rochelle, where all but one of the dead live, business was almost entirely suspended yesterday.

The district attorney's inquiry was held behind closed doors. Mr. Jerome presided. At the conclusion he announced that as far as the evidence which is to be submitted to the coroner at the inquest is concerned the investigation has practically been concluded. He added, however, that the investigation will be carried on for some time yet and that more witnesses will be examined this week.

He admitted the present grand jury may be asked to act in the matter. All the evidence went to show that the engineer was a careful man and of good reputation, both as a citizen and an employee. It was learned, though, that Wischow passed his examination as engineer only last August. Before that he was a fireman. Of late he had been acting as engineer at intervals.

There has been no further deaths among the injured and all are doing as well as could be expected.

ORDERED DESIGN FOR MONUMENT TO M'KINLEY.

Raleigh, N. C., Jan. 10.—Information comes from Durham, N. C., that Hon. J. B. Duke has ordered from an Italian sculptor a design for a heroic bronze statue of President McKinley. Mr. Duke, it is understood, wishes the South to erect the first memorial to the martyred President and will place this figure in the college park of Trinity College, at Durham.

COUNTY AND NEIGHBORHOOD

The Martin's Ferry council is considering the installation of a garbage crematory.

A Pittsburg syndicate will build a sanitarium on the Woods litha farm near Bridgeport, O.

J. H. Simms, of Rochester township, has been appointed mercantile appraiser of Beaver county, Pa.

James Allen, a prominent farmer was found dead in a road near Washington, Pa. It is believed he was murdered.

Akron citizens yesterday decided to contribute \$40,000 toward the establishment of a Young Men's Christian association.

Captain William Prince, a veteran steamboat man, has announced his candidacy for city police sergeant on the Democratic ticket at Wheeling.

Miss Natalie Brown, a Youngstown girl, chased a thief, who had stolen her pocketbook, for several blocks, but he got away. The purse contained \$20.

Fred Lee, aged 32, of Parkersburg, weighing 101 pounds was married at Gallipolis to Miss Myrtle Long. She is 16 years old and weighs 432 pounds.

Mrs. Marie B. Woodworth, a noted evangelist, formerly of Lisbon, and Samuel P. Etter, of St. Louis, Mo., were lately married at Round Prairie, Ill.

F. C. Gregory, aged 44, a well known C. L. & W. trainman, fell from the C. & P. creek bridge in Bridgeport, and was instantly killed. He leaves a family.

The teachers in the public schools of Donegal township, Washington county, Pa., have struck because the board of directors refuse to grant them an increase in salary.

George Spielman, an Austrian aged 49, slashed his throat with a razor in a corn field near Canonsburg, Pa., and was found dead a few hours later. He had quarreled with his wife.

The operation of the special ripper law for Beaver county, by which the poor directors were ousted from office Jan. 1, is said to be causing much suffering among the poor, who are unable to obtain relief.

Trainmen on the C. L. & W. railroad think they should be paid the same wages as the men on the main line of the B. & O. They propose to send a committee to Baltimore to confer with the officers of the company as to an increase.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil. Monarch over pain.

Moffat's Life Pills are truly the woman's best friend, because they cure all female obstructions and general weakness. Try them.

Kindly Take Notice that Ely's Liquid Cream Balm is of great benefit to those sufferers from nasal catarrh who cannot inhale freely through the nose, but must treat themselves by spraying. Liquid Cream Balm differs in form, but not medicinally from the Cream Balm that has stood for years at the head of remedies for catarrh. It may be used in any nasal atomizer. The price, including a spraying tube, is 75 cts. Sold by druggists and mailed by Ely Brothers, 56 Warren street, New York.

For County Commissioner.

As I announced my full intentions last spring of being a candidate for the office of County Commissioner, notwithstanding other reports, I wish to say to my friends and the public in general, that I have never dropped out of the contest and ask for your earnest support in my canvass.

R. G. BOYD. 165-4f

STAR BARGAIN STORE.

FRIDAY, JANUARY 10, 1902.

Members of the United States sen-
 ate who are recognized leaders ha-
 taken alarm at the progress of the
 movement for the election of senators
 by the people. Resolutions from six
 states have been received already in
 this congress and referred to the com-
 mittee on privileges and elections of
 the senate, asking the submission of
 an amendment to the federal constitu-
 tion under the provision of article
 5, to a convention to be called upon
 the application of the legislatures of
 two-thirds of the states. The states
 which have been heard from thus far
 are Colorado, Michigan, Montana, Or-
 egon, Idaho and Nevada. If 30 states,
 through their legislatures, make such
 a demand the congress must act. More
 than 30 states have already declared
 in favor of the election of senators
 by the people. There is no general
 opposition to the plan save in the
 United States senate. It begins to
 look as if the reform were bound to
 come.

The new code bill, backed by the
 state bar association and the state
 board of commerce, having for its ob-
 ject a uniform system of municipal
 government for Ohio cities and towns,
 will come prominently before the leg-
 islature at an early date. Of course
 it will be vigorously opposed, be-
 cause it is to the interest of a lot of
 people to oppose it. But the opposi-
 tion will not come from a majority
 of taxpayers nor from those who are
 interested in good government. Local
 conditions do not vary so much that
 all Ohio municipalities cannot safely
 be placed under one code, provided it
 be a wise one. Effort in that direc-
 tion certainly deserves to be encour-
 aged.

The Michigan and Ohio members of
 congress, whose districts touch the
 lakes, are interested in a bill being
 prepared by the secretary of the navy
 providing for the establishment of a
 naval training station on the great
 lakes. The secretary says that one is
 needed very much and he hopes con-
 gress will make the necessary
 provision. The states bordering on the
 great lakes form no inconsiderable
 part of the country. They are capable
 of strengthening the navy greatly, as
 they have done in the past. The sea
 shore is distant, and a lake training
 school would be valuable, both to the
 naval militia of the central states
 and to the country at large.

Not to be outdone by the Parisians,
 the managers of the coming St. Louis
 exposition are going to have balloon
 races that will attract the attention
 of the world. A prize of \$200,000 is
 to be awarded to the inventor of the
 best dirigible balloon. A Chicago Dar-
 us Green already has his airship in
 process of construction, and numerous
 others will undoubtedly follow suit.
 Progress in aeronautics has been so
 rapid of late years as to lead to the
 hope that the great problem may be
 completely solved during the twen-
 tieth century. And in bringing about
 that result it will be strange if Yan-
 kee ingenuity does not figure conspic-
 uously.

The champion absent minded cler-
 gyman appears to be Rev. Joseph M.
 Avann, presiding elder of the Toledo
 Methodist Episcopal district. He is
 54 years old and has been marrying
 couples for 25 years, yet when he
 came to get married himself he for-
 got to get a marriage license. The
 minister who performed the ceremony
 neglected to ask for one, thinking no

preliminaries had been neglected,
 and it is now said the presiding elder
 must be remarried.

Iceland and Greenland cut but a
 small figure in the world, but they
 propose to do better. Iceland, it is
 said, intends to spend \$45,000 to es-
 tablish communication between her
 shores, Greenland, the Faroe islands
 and Canada by means of the Marconi
 system of wireless telegraphy. The
 distant nations of the north are likely
 to derive most of the earth are likely
 system of communication, when once
 it is put in successful operation.

The Republican county central com-
 mittee announces that it will meet at
 Lisbon on Friday forenoon, Jan. 17,
 "in conjunction with the aspirants for
 nominations at the coming county pri-
 maries," to fix the date for the primar-
 ies and transact other business. The
 meeting is an important one and
 should be attended by all interested
 parties.

Pitchfork Tillman says President
 Roosevelt is "utterly incapable" of per-
 forming the duties of his office. It is
 indeed fortunate that the Tillman
 standard of measuring capability pre-
 vails to but an extremely limited ex-
 tent. An administration whose course
 should suit that fire-eater would be a
 national calamity.

The British public is excited about
 a poet with a prod. It is clear that
 Kipling will never reach the laureat-
 ship on the strength of skill in flat-
 tery.

OBITUARY

Mrs. Wm. H. Adams.

The final summons came suddenly
 to Mrs. Wm. H. Adams, at her home,
 357 Lincoln avenue, about 11 o'clock
 last night. She had not been in good
 health and was confined to her bed
 a portion of the time, but was sitting
 in a chair at noon when a stroke of
 paralysis overcame her. No rally oc-
 curred and it became evident that liv-
 ing lease was short.

The maiden name of the deceased was
 Laura M. Timmons. She was a daugh-
 ter of Mr. and Mrs. T. O. Timmons,
 who reside at 361 Lincoln avenue, and
 was born September 2, 1852, in Uh-
 richsville. Her marriage to William
 H. Adams occurred in Canal Dover.
 In 1879 she came to this city, where
 she has since resided. Besides the
 husband, three children, Edward C.,
 Bessie E. and Mayme Adams, survive.
 There is also a sister, Mrs. Ted
 Brooks, and a brother, Fred Tim-
 mons, who reside in East Liverpool.

Mrs. Adams was a devout member
 of the Methodist church, and on ac-
 count of her kindly works had many
 friends. Arrangements for the funeral
 have not as yet been made, but the
 obsequies will be held some time Mon-
 day.

AT THE THEATER

A long laugh, set in smiles to the
 "Katzenjammer Kids" with the Blon-
 dells, is the attraction at the opera
 house tonight. It is presented by
 clever comedians, dashing soubrettes
 and a large chorus of pretty girls who
 can sing and dance and make the
 hours merry. The "Katzenjammer
 Kids" met with instantaneous success
 and is accepted in the east and west
 as a positive novelty in farce comedy.
 Edward Blondell, who has become
 famous for his bright and witty vaude-
 ville sketches, is the author. Messrs.
 Blondell and Fennessy, the managers,
 have placed it before the public with
 one of the strongest companies ever
 seen in farce comedy. Every member
 is selected for his line of work which
 embraces selection from grand to com-
 ic opera, vaudeville and drama. In-
 cidental to the play are unique and novel
 specialties.

Chester De Vonde and an excellent
 company will begin a week's engage-
 ment at the opera house, commencing
 Monday night. "Dr. Jekyll and Mr.
 Hyde," that weird and interesting story
 of Robert Louis Stevenson's, with
 Mr. De Vonde in the dual role, will be
 played. Mr. De Vonde will produce
 the authentic French version, which is
 the most remarkable and only specta-
 cular rendition of this strange play.
 An eminent critic has pronounced Mr.
 De Vonde's work in this most trying
 double role as the most finished of
 any other interpreter besides Mr.
 Richard Mansfield who created the
 part. Special scenery and novel
 lighting effects will be used.

We will be closed Tuesday and Wed-
 nesday of next week in order to mark
 down prices. Wait for us. 8-h

POTTERY NEWS

D. A. Hayes, president of the Glass
 Bottle Blowers' Association of the
 United States and Canada, and one
 of the vice presidents of the Ameri-
 can Federation of Labor, has been en-
 gaged by the National Brotherhood of
 Operative Potters to address a meet-
 ing of the working men of Trenton.
 Mr. Hayes will speak in Association
 hall in that city some time in Febru-
 ary. He is one of the most prominent
 labor leaders in America and has served
 several terms as the head of the
 glass blowers. He recently organized
 all the men employed in the glass
 houses in South Jersey and conducted
 their strike, which netted them a num-
 ber of reforms.

John Allmon, late foreman of the
 decorating department of the French
 China company at Sebring, has ac-
 cepted the position of salesman for
 that company, and is now out on the
 road. Charles Miller, formerly em-
 ployed as printer by this firm, is now
 filling Mr. Allmon's place in the de-
 corating room.

The packers were off duty at the
 Chelsea plant at New Cumberland
 several days last week, on account of
 no packages, and all the time a ship-
 ment of empty barrels were lying at
 the uptown wharf. The steamboat
 had put them off at that point by
 mistake.

The new electric light plant at the
 Chelsea pottery at New Cumberland
 is ready to start, but is now waiting
 for some connections about the dyna-
 mo with the main shaft of the big
 engine.

We will be closed Tuesday and Wed-
 nesday of next week in order to mark
 down prices. Wait on us. 8-h

Porto Rico is proving to be an inter-
 esting field for the scientists in the
 employ of the government, says the
 Washington Star. They have already
 discovered much that is new in plant
 and animal life on this island. Among
 recent discoveries are the finding of
 many new fresh water leeches, new
 sea crabs and shrimps and a peculiar
 class of crayfish, which seem to be in-
 termediate between shrimps and lob-
 sters.

The eyes of these little crayfish are
 not set in their heads, but grow on the

MONSTER IGUANA LIZARD FOUND ON MONA ISLE.

end of long stalks, sprouting forth
 from either side of the head. The
 limbs of these strange creatures resem-
 ble toothbrushes, being covered with a
 growth of something akin to hair.

The Smithsonian institution has re-
 ceived a number of specimens of bird
 and animal life from Mona Isle, a
 strange rockbound island off the coast
 of Porto Rico. The island has a pec-
 uliar fauna. Most interesting objects
 are enormous iguana lizards, which
 have been discovered in great number.
 These lizards are very much larger
 than those of Cuba and Mexico.

FRIENDS AND VISITORS

Homer D. Clark, of Third street,
 is seriously ill.

Robert Weigand and wife are spend-
 ing the day in Pittsburgh.

John W. Moore, of Fifth street, is
 ill, threatened with fever.

Mr. and Mrs. John Thompson were
 Pittsburg visitors yesterday.

J. L. Athan has returned from a
 visit with his uncle at Dayton.

J. R. Wooley, depot clerk, attended
 the theater at Pittsburg last night.

Alfred Westcote has returned from
 a visit to his parents in Allegheny.

William H. Harvey, who resides on
 Eighth street, is ill with pneumonia.

Miss Florence Foutts, of Fifth
 street, is visiting friends in Wheel-
 ing.

Alex Needham, who has been dan-
 gerously ill from pneumonia, is con-
 valescent.

H. L. McConnell returned to his
 home at Carrollton today after a visit
 with friends here.

J. P. Smart, wife and daughter have
 returned from a visit with relatives
 and friends at Wheeling.

John Nice left yesterday for the
 south, where he will spend the win-
 ter. He will be located at Charles-
 ton.

W. H. Sweeney and C. S. Kevan, of
 Scranton, Pa., representing a college
 of that city, are spending a few days
 here.

Charles Wright arrives this evening
 from Battle Creek, Mich., and will
 make his home with his father, Y.
 M. C. A. Secretary M. C. Wright.

Miss Eliza Cartwright and Mrs. Rol-
 lin Patterson left this morning to at-
 tend a card party given by Miss Bes-
 sie McKenna, of Pittsburg, in honor
 of Mrs. S. R. Huss.

TELEGRAM

Philadelphia, Pa., Jan. 9th, 1902.

Messrs. Abrams & Little,

Care Surprise Clothing House, East Liverpool, Ohio.

Bought the interest of Morris Lang in the Surprise
 Clothing House today, prepare to make big reduction in prices
 at once, will be home Friday Night.

ISAAC LANG.

Mr. Isaac Lang, the sender of the above telegram has been connected with the firm
 of Morris Lang & Co. almost from its first conception and owing to his able
 business qualifications has helped to make the Surprise Clothing
 House a household synonym.

THE SURPRISE CLOTHING HOUSE

has been for years one of the leading and most substantial clothing houses of this
 city, and there is no doubt but that the new firm will be even more success-
 ful than the old one. Those who have been patrons of the old
 house will continue their pleasant and profitable relations
 with the new firm, while many new customers
 will be added by the extraordinary in-
 ducements that will be offered.

It is the intention of the management, according to the above tel-
 egram, to

Immediately Convert as Much Stock

As Possible Into Ready Cash

and buyers who have the interests of their pocketbooks and bank ac-
 count in mind will watch for the early big cut price announce-
 ments which will be made shortly by

WELLSVILLE

THE SEWER BREAK

Mr. Brannan Places Responsibility for It to Council—Commission Meeting.

The sewer commission met in the city engineer's office last evening, but was not called to order owing to the absence of a member. Nevertheless several matters of importance were presented and discussed. Mr. Bowers read a communication which he had received from Mr. Riggs, of the Riggs & Sherman company, of Toledo. In the letter Mr. Riggs stated that had the plans submitted to the city engineer by them been adhered to the break in the storm sewer on Sewer street would never have occurred.

The plan, stated Mr. Riggs, provided for a grade two feet lower than the one in use. Mr. Brannan accused the city council of being responsible for the demolished sewer. He said that it was through the influence of two members of council that the grade was changed by Engineer White.

Clerk Snowden was not ready to file his final report and the members decided to meet again next Monday evening.

At this meeting several resolutions will be presented, one of which will be to thank the council for the courteous way in which they dismissed the commission.

FLAT DISOBEDIENCE

Of the Wishes of the Principal Alleged to Have Been Shown By High School Seniors.

Rumors are rife of trouble in the high school. It is said that a misunderstanding in regard to money in the treasury of the senior class and how it shall be expended has led to a controversy that may have serious consequences.

The seniors, according to custom, decided to use money which had been gained by entertainments in buying a class pin for each member of the class, but, it is alleged Miss Ruby Mason, the principal, strenuously objected. Yet the seniors, contrary to her wish, bought pins for themselves out of the treasury fund. The end can only be conjectured. There has been talk of taking the matter before the board of education, but a member of that body said yesterday that he could not see how the board was concerned.

A SKATER'S MISHAP

Arthur Steele, Aged 14, Fell on the Ice, Badly Breaking His Arm.

Arthur Steele, the 14-year-old boy who recently had the end of a finger severed in the shops, very unfortunately met with another accident yesterday.

He was skating on the pond on the fair ground when he slipped and fell violently, breaking his right arm in two places. As a result of the accident he is in a badly crippled condition.

Thank Offering Meeting.

The Woman's Home Missionary society of the Methodist Episcopal church held a thank offering meeting in the church last evening. Over \$25 was subscribed for the furthering of the cause and the membership was increased quite materially. Rev. C. E. Clark, pastor of the church, delivered a very interesting and instructive address on missions and their work.

New Era Club Meeting.

At the home of Miss Goldie Murdock the New Era club will meet this evening. The following program will be executed: Quotations, Bryant; Paper, Causes Which Led to the Revolution, Mrs. Phillips; paper, Benjamin Franklin, Miss Arnold; Revolutionary War, the club. Leader, Miss Grace Parke.

A Painful Injury.

Tucker Lyons, while at work in the West End shops, received painful injuries to his left cheek. He was helping in the blacksmith department when a piece of metal was blown from a forge and struck his cheek bone, inflicting an ugly wound. He will be laid up for several days.

A Profitable Meeting.

The union meeting today of the churches that are observing the week

of prayer was held in the First Presbyterian church, Rev. L. F. Lavery presiding. The subject was "The Church And Civic Righteousness." There was a large attendance at the meeting and a profitable time was spent by all.

MINOR NEWS OF WELLSVILLE.

Charles Ray is suffering with fever.

Leon Tibbet, of Oil City, Pa., is in the city.

Mrs. J. B. Hayes is very sick with the grip.

Mrs. H. A. Frazier is visiting friends in Allegheny.

Frank McClain was a visitor in Pittsburgh today.

Miss Edna Dugan is recovering from a severe sickness.

William Russell, of Pine Ridge, was in town yesterday.

A. B. Stubbins, Broadway, is critically ill with fever.

E. A. Richards and wife are visiting relatives in Pittsburgh.

Mrs. Margaret Cain, of Bellaire, is the guest of Mrs. Jenks Hamilton.

Miss Sadie Russell went to Hammondsville yesterday to visit a few days.

Horace Langworthy is confined to his home owing to an attack of the fever.

Miss Edith Sweetley returned to Pittsburgh last evening after a short visit with friends.

Miss Lulu Sterling, the guest of Miss Lena Lowray for a week, returned to Lisbon yesterday.

N. H. Hill and family have moved from Nevada street to the McGregor property on Second street.

Charles Brant left yesterday for Allegheny, where he will accept a position on a street car line as motorman.

Miss Jeannette Kelly is mourning the loss of her French poodle dog. The canine died Wednesday. It was a valuable dog, having cost \$25.

WONDERFUL CAVE FOUND.

Marvels of a Prehistoric Dwelling Place in the Rockies.

A new cave that gives promise of developing into the most wonderful of its kind in the known world has been discovered in the mountains about forty-eight miles east of Butte, Mont., in Jefferson canyon, says the St. Louis Globe-Democrat. Its extent is as yet unknown, though it has been explored for a distance of ten miles and to a depth of about 800 feet. The entrance to the cave, which is near the track of the Northern Pacific railway and about 1,600 feet above the bed of the river, was discovered a few weeks ago by a hunter, and the cavern has just been explored by a party headed by J. W. Gilbert, a newspaper writer of Butte.

Mr. Gilbert returned recently with evidence of his discoveries and the wonders of the cave. Several skeletons were found in one of the many rooms, and many articles and utensils of stone and copper were lying about, some of which have been brought out. The skeletons are of people of gigantic stature, and the belief of Mr. Gilbert is that the cave was the abode of a prehistoric people and that further explanation will bring to light proof of that fact and more remains of its inhabitants.

A theory is that by a sudden change and disturbance of the earth the entrance to the ancient home was closed and the inhabitants walled up and left to die. A large river, with a fall of 100 feet at one place, is one of the wonders of the cave, and a score of apartments, some hundreds of feet in extent, are decorated with the wonderful formations of nature. One room resembles the interior of a cathedral, with a gigantic pipe organ, the pipes being formed of stalactites tuned by nature to give forth beautiful notes of harmony. A member of the exploring party, by striking the pipes with a stick, played "Nearer, My God, to Thee," and the explorers declare it was the grandest music ever heard.

Access to the cave is very difficult, as a direct descent of 400 feet is necessary before any footing can be secured. Another party will shortly visit the cave fully equipped for a thorough exploration.

We will be closed Tuesday and Wednesday of next week in order to mark down prices. Wait for us.

MANY ARGUMENTS

ENLIVENED THE WORK OF THE CHESTER COUNCIL.

Train Running Ordinance Modified. Several Bills Debated And Ordered Paid.

Lengthy debates and heated arguments helped to swell the enthusiasm and excitement displayed by the councilmen of Chester at the meeting last evening. When the ordinance providing for the operation of trains within the city limits was presented for its last reading and final passage serious objections were made by several members.

At the conclusion of the reading one member had difficulty in getting the floor. He stated that as the railroad company had submitted a letter asking that sections 1 and 5 1-2 be changed and eliminated, he thought that the request should be complied with.

As a result of his speech council ordered that the rate of running trains should be increased from six to eight miles per hour and that the section which prohibited the use of flying switches, be obliterated from the ordinance. The ordinance was then passed.

A bill of Engineer J. C. Boyd, amounting to \$77.95, was ordered paid after considerable wrangling. Councilman Riley thought that the engineer should have more thoroughly itemized his bill, but Recorder Marshall convinced Mr. Riley that the work had really been done by the engineer and that the money was due him. Mr. Riley again remonstrated when the bill of C. A. Smith was presented, holding that \$154 was too much to pay a man or an organization of men for the work connected with the incorporation of Chester.

City Solicitor Marshall, of New Cumberland, was present and explained in detail the work attached to an incorporating committee, but Mr. Riley remained obstinate and voted against the payment of the bill. The remaining councilmen thought the bill very reasonable and ordered a warrant drawn on the city treasury for the full amount.

J. J. Marshall was compelled to state how many days he worked and in what manner he put in the time when assessing the city property before his bill of \$16.65 was allowed.

Commissioner A. G. Pugh was for the third time ordered to submit an itemized account of his work during the year 1901. The auditing committee agreed to assemble in the city hall next Tuesday evening for the purpose of examining the recorder's books.

Council appointed a committee to purchase a safe which will be used as a protection of the valuable city documents against burglars and fire.

COAL DEAL PROGRESSING

A. C. Pugh, of Hookstown, Is Confident That It Will Go Through.

A. C. Pugh, the coal magnate of Hookstown, was a business visitor in Chester today. He held a conference with 'Squire Johnston in regard to the 15,000 coal deal in which he and Mr. Johnston are interested.

It is stated that they will undergo no difficulty in securing options on the coveted land, as the owners are very anxious to realize a nominal sum of money for the coal which underlies their land.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. For free illustrated booklet write S. K. Hooper, R. P. & T. A., Denver, Col. 8-11-4-11

NATURE'S ENERGY.

Possibilities of Utilizing Heat of the Earth's Interior.

New methods of utilizing nature's energy constantly are being discovered, and doubtless the future has in store greater discoveries than yet have been made. T. C. Mendenhall in Cassier's Magazine writes of the stored energy of the heat of the earth's interior and the possibilities of using it as a source of power. He says:

"The stored energy of the heat of the earth's interior is beyond power of calculation, and some not entirely unsuccessful attempts to utilize this have already been made. From a short distance below the surface the temperature increases downward at an average rate which indicates that at a depth of fifty miles it is not less than 5,000 degrees F., and there is abundant reason for believing that the earth is an intensely hot body with only a thin layer of poorly conducting, cold surface matter.

"These are the essential conditions of a heat engine of enormous capacity, and as in many parts of the world comparatively high temperatures are found very near the surface, while in all parts considerable ranges are possible within reasonable differences of level, the interior heat of the earth, which has an origin more remote in time than the sun or its own axial rotation, is worthy of most serious consideration as a possible and reasonable source of power.

"Its importance will be greatly enhanced when we are able to transform heat energy directly into electricity on a large scale and with economy, avoiding the great waste which necessarily accompanies the use of the steam engine, and this must soon come about."

5 PER CENT BONDS

Announced as the Form of Carnegie's \$10,000,000 Gift.

PURPOSES OF THE DONOR.

Stated by Himself, in Request Sent to Different Persons to Become Members of Board of Trustees. Some Men Elected by Incorporators.

Washington, Jan. 10.—Official announcement was made of the board of trustees of the Carnegie institution, which has been incorporated here under the \$10,000,000 gift of Andrew Carnegie. The only indication as to the form of the gift is that it will be in "five per cent bonds."

The announcement was made in the form of a statement given out by Dr. Charles Walcott, Secretary of the incorporators. Its contents were in part: The board of trustees elected by the incorporators are given. The ex-officio members are: The President of the United States; the President of the United States Senate; the Speaker of the House of Representatives; the Secretary of the Smithsonian Institution; the President of the National Academy of Sciences. Among the other members are Grover Cleveland, William N. Frew, Lyman J. Gage, Daniel C. Gilman, John Hay, Seth Low, Wayne McVeagh, Elihu Root, Andrew D. White, Chas. D. Walcott and Carroll D. Wright.

The board of trustees will meet to organize and elect officers in the office of the Secretary of State, on January 29.

Mr. Carnegie's Purpose.

Mr. Carnegie's purpose, as stated by himself, in requesting the various trustees to become members of the board, is as follows:

"It is proposed to found in the city of Washington, in the spirit of Washington, an institution which, with the co-operation of institutions now or hereafter established, there or elsewhere, shall, in the broadest and most liberal manner encourage investigation, research and discovery, encourage the application of knowledge to the improvement of mankind; provide such buildings, laboratories, books and apparatus as may be needed, and afford instruction of an advanced character to students whenever and wherever found, inside or outside of schools, properly qualified to profit thereby."

Among its aims are these:

"First. To increase the efficiency of the universities and other institutions of learning throughout the country by utilizing and adding to their existing facilities, and by aiding teachers in the various institutions for experimental and other work in these institutions as far as may be advisable.

"Second. To discover the exceptional man in every department of study whenever and wherever found and enable him by financial aid to make the work for which he seems specially designed, his life work.

"Third. To promote original research, paying great attention thereto, as being one of the chief purposes of this institution.

"Fourth. To increase facilities for higher education.

For Those Desiring Washington.

"Fifth. To enable such students as may find Washington the best point for their special studies to avail themselves of such advantages as may be open to them in the museums, libraries, laboratories, observatory, meteorological, piscicultural and forestry schools and kindred institutions of the several departments of the government.

"Sixth. To insure the prompt publication and distribution of the results of scientific investigation, a field considered to be highly important.

"These and kindred objects may be attained by providing the necessary apparatus for experimental work, by employing able teachers from the various institutions in Washington or elsewhere, and by enabling men fitted for special work to devote themselves to it, through salaries, fellowships or scholarships, or through salaries with or without pensions in old age, or through aid in other forms to such men as continue their special work at seats of learning throughout the world."

TO CONSIDER THE BIBLE.

Pope Appoints a Mission—An American One Member.

Rome, Jan. 10.—The membership of the papal commission on modern questions concerning the Holy Writ is officially announced. It consists of Cardinal Parechi, Vice Chancellor of the Holy Roman church, and Cardi-

CONSUMPTION

Right food—right medicine—right time—these three things are of the utmost importance to the consumptive. Right food and right medicine—these are contained in Scott's Emulsion of pure cod-liver oil. Right time is at first sign of disease. Right time is now.

Scott's Emulsion always helps, often cures. Ordinary food helps feed. Fresh air helps cure. Scott's Emulsion does both. Begin early.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

ABOLISH the TREASURY

By A. S. STICKNEY, President of the Chicago Great Western Railway Company

IT IS MY CONVICTION THAT THERE IS NO SAFETY AND CAN BE NO SAFETY TO FINANCIAL AFFAIRS IN THE UNITED STATES UNTIL THE TREASURY IS ABOLISHED; but, at the same time, we must not close our eyes to the fact that it has become an integral part of the banking system and cannot be safely destroyed until a central reserve bank has been developed. Otherwise the duty of protecting the gold reserve from exportation would fall upon 4,064 national and 5,648 state banks and institutions.

THE IMPOSSIBILITY OF MORE THAN 9,000 SEPARATE BANKS PROTECTING THE GOLD RESERVE AGAINST EXPORTATION WOULD NECESSITATE A CENTRAL RESERVE BANK.

Such is the central bank which I advocate, a bank produced by evolution and controlled by the natural laws of trade, INSTEAD OF A BANK CONTROLLED BY PARTISAN, ILL CONSIDERED AND COMPROMISE LEGISLATION.

Under free banking laws many and perhaps a majority of the present banks would continue to conduct local, independent banks for an indefinite period. Being free, they could continue their independent banks as long as they saw fit.

naia Segna, prefect of the vatican archives, and Vives y Tute, as assessor. Among the consultants chosen from the various countries is Prof. Garrigan, of the Catholic university at Washington. The scope of the inquiry is to ascertain the limits of freedom to be allowed the Catholic exegetist in biblical questions of the day and to point out definitely what must be maintained and what must be rejected in the interests of orthodoxy, what are allowable and what are left to the individual conscience. The commission, notably the president, is said to represent broad-minded, progressive tendencies.

MANY FILPINOS ARE IDLE.

Root Said to Have Blamed Spooner Amendment—Cause of Some Hostility.

Washington, Jan. 10.—Secretary Root gave an interesting exposition of the condition of affairs in the Philippines in the course of a hearing yesterday before the House Committee on Military Affairs, in connection with the army appropriation bill. The meeting was behind closed doors and no exact statement of Mr. Root's remarks were given out. The Associated Press furnished a statement of what was understood to embody the more essential features. This statement contained the following in part:

The discussion of the Philippine conditions was brought out by a question by Mr. Hay, of Virginia, as to whether civil government could be maintained in the islands without the presence of an army. In reply Mr. Root stated that the army was necessary as a moral force to maintain the civil administration now established. One of the main causes, he said, why there had not been more progress in the Philippines was that the Spooner amendment passed by Congress last year and restricting the grant of franchises had the effect of preventing the investment of capital, and the consequent employment of labor.

Many people were idle, and many of these became conspirators simply because they were idle.

Mr. Root pointed out that even in provinces where civil government had been a success there were men conspiring to assist in the agitation and warfare carried on in neighboring provinces. On the whole, however, the Secretary expressed the belief that if Congress enacted the bill proposed by Senator Lodge, or that of Representative Cooper, of Wisconsin, providing systems of laws for the Philippines, it would be possible soon thereafter gradually to reduce the military establishment in the Philippines. He did not believe it would be rapid or complete termination of military rule. Mr. Root said that better progress had been made in the last year than had been expected, and he expressed the opinion that civilization ultimately would be extended to the people of the islands.

BRYAN WELL RECEIVED.

Cheered in Boston—Held Reception. Guest at a Banquet.

Boston, Jan. 10.—Hon. William Jennings Bryan arrived in Boston yesterday afternoon from New Haven to be the guest of the Commonwealth club.

There was a large crowd at the station to see the distinguished visitor, and when he stepped from the train and passed along the platform he was loudly cheered. He was recognized on the street and heartily greeted.

At 6:30 o'clock Mr. Bryan held a reception at the Quincy and many men of political and business prominence paid him their respects.

Following the reception a banquet was served to the company, and Mr. Bryan was again the central figure.

EX-OHIOAN SUES DOWIE.

Former Mansfield Man Charges Alienation of Wife's Affections.

Chicago, Jan. 10.—Benjamin F. Williams, formerly a school teacher in Mansfield, O., and once a follower of "Dr." John Alexander Dowie, began suit in the circuit court of Cook county for damages in the sum of \$50,000 against "Dr." Dowie and Elders John G. Speicher and Cyrus B. Fockler, of the Christian Catholic Church of America for alleged conspiracy to alienate his wife's affections.

Williams alleges that through the teachings of Dowie and his followers, Edith R. Williams was influenced to treat him as a stranger. He avers that the cause of this influence was that he did not contribute tithes to Dowie's numerous business enterprises.

SIR THOMAS LIPTON'S FOE.

Lady Henry Somerset Sides With Labor Against Yachtsman.

Sir Thomas Lipton, although personally popular and supposed to have prospects of promotion to the British peerage owing to the king's friendship for him, is having trouble of his own just now. Society seems to be taking a great deal of interest in the welfare of his employees, and some of the society papers are collecting evidence of the charges that women in the Lipton factories are subjected to many indignities besides being underpaid.

Arrayed against Sir Thomas are Lady Dilke, Lady Henry Somerset and

LADY HENRY SOMERSET.

the beautiful Countess of Warwick in the contest that is coming over the wages that he pays his army of cheap labor. Lady Somerset is president of the Working Women's league.

In Lady Henry Somerset the famous yachtsman will find a formidable foe. She is an inveterate reformer and is almost as well known in America as in England. She was the bosom friend of Frances Willard and is one of the great apostles of temperance.

CHEESE—New York, full cream, 11½¢@12¢; Ohio, 11½¢; ¾ cream, Ohio, 9½¢@10¢; Ohio Swiss, tubs, 13¢@14¢; Wisconsin Swiss, tubs, 15¢@15½¢; 20-lb block Swiss, 15¢@15½¢; 5-lb brick cheese, 13¢@13½¢; Limburger, 13¢.

EGGS—Fresh candled, doz., 28¢@30¢; storage, 21¢@23¢.

POULTRY—Chickens, live hens, per lb., 10¢@10½¢; springers, 10¢@10½¢; roosters, 5¢@6¢ per lb.; turkeys, per lb., 10¢@11¢; turkeys, dressed, 16¢@17¢; hens, dressed, per lb., 14¢@14½¢; fresh spring, dressed, per lb., 14¢@14½¢; geese, 8¢@9¢; dressed, 14¢@15¢; ducks, spring, 10¢@11¢; dressed, 16¢@17¢.

CATTLE—Choice, \$6.40@6.60; prime, \$5.55@6.10; good, \$5.35@5.65; tidy butchers, \$4.60@5.15; fair, \$4.00@4.50; common, \$2.75@3.75; heifers, \$3.50@4.75; fat cows, \$1.50@4.00; bulls and stags, \$2.50@4.25; good fresh cows, \$4.00@6.00; fair and fresh cows, \$2.50@3.50.

HOGS—Prime heavies, \$6.55@6.60; heavy mediums, \$6.45@6.50; light mediums, \$6.30@6.40; heavy Yorkers, \$6.25@6.30; light Yorkers, \$6.10@6.20; pigs, \$5.80@6.00; roughs, \$5.00@6.00. SHEEP AND LAMBS—Best wethers, \$3.90@4.15; good, \$3.40@3.75; mixed, \$2.50@3.25; culls and common, \$1.00@2.00; yearlings, \$3.00@4.50; lambs, \$4.00@5.70; veal calves, \$7.00@8.00.

A WIDESPREAD BOOM IN PEDESTRIANISM.

New York the Next City to Hold a Walking and Running Contest.

Pedestrianism seems to be forcing its way back into public favor. The splendid sport, which "flourished as the green bay tree" a score of years ago, is deserving of a revival, and it is not surprising that promoters throughout the country have started the good work along. Philadelphia, Pittsburg and Rochester have held interesting matches, and now New York falls into line.

Kennedy and Powers of New York, who conducted the recent successful six day bicycle race in New York, have arranged to hold a go as you please contest in Madison Square Garden Feb. 9, and the entries have poured in so rapidly that the managers are puzzled over the problem of providing running space for the contestants. The race is to continue for six days.

The coming race will be something of an innovation. In the old days a man could stay on the track as long as he pleased, but the present law in New York state will allow a man to compete only twelve hours each day, and this race will therefore be held under the same conditions as the recent six day bicycle race.

It will undoubtedly prove a more grueling contest than the old six day walking matches, for it will mean a dog trot all the time and will have to change every half hour.

In this race will be seen several men who were famous in the one hundred and forty-two hour struggles in New York city more than a decade ago. They are Frank Hart, considered the nearest walker that ever stepped in a shoe; George Cartwright, a very graceful runner; Peter Hegelman, famous for his immense stride; Noremac, the plucky little Scotchman, whose real name is Cameron, but who spells it backward when he competes; Peter Golden, who has a smile when in a race that no amount of fatigue can obliterate; "Old Sammy" Day, who in the old days was wont to keep the spectators in a roar by his witty sallies and cockney songs, and Gus Guerero.

The presence of these old campaigners will recall to many a spectator the heyday of the sport, when Rowell, Fitzgerald, Albert and Littlewood made thousands of dollars. Rowell won \$27,000 in one race at Madison Square Garden and carried back to England the sum of \$44,000 as the result of two races in New York. He is a small, broad shouldered fellow and probably the luckiest runner that ever trod the sawdust track.

In one of the big races at the Garden he trotted sixty-two miles without a break, with the wild eyed "Lepper" Hughes at his elbow, and covered 150 miles in the first twenty-four hours. Rowell still holds the world's records from 90 to 383 miles.

The greatest struggle ever seen at the Garden was when the lanky Fitzgerald beat Rowell. For the last three days the men were practically together, and the entire city was frantic with excitement. Wall street men met at the Garden every night, and thousands of dollars changed hands on the result.

The crowd at the Garden during those days has never since been equalled in the big arena, and Fitzgerald won a good sized fortune. He afterward became an alderman and staid citizen of Long Island City, N. Y.

Rowell is now a prosperous innkeeper in England. George Cartwright, who will be seen in the approaching race, still holds the professional records for fifty and sixty miles.

All the old timers entered in this race are still strong, healthy looking men, and with a big prize as an incentive they will undoubtedly train hard and give the younger men in the race a hard task to beat them. The best of the new blood appears to be Stokes, Tracy, Cavanaugh, Hegelman, Hjertberg, Glick, Dean and the Seneca Indians, Frank and Jerry Pierce.

Terrible plagues, those itching, pestering diseases of the skin. Put an end to misery. Doan's Ointment cures at any drug store.

McCREARY IS CHOSEN

By Kentucky Democrats As
Their Candidate For U.
S. Senator.

EQUIVALENT TO AN ELECTION.

Smith and Wheeler Withdrew—Can-
trill Stayed in For Complimentary
Vote—Brief Sketch of Prospective
Senator's Career.

Frankfort, Ky., Jan. 10.—Standing
in the rostrum of the old hall of
representatives of the Kentucky capitol
where nearly 30 years ago he be-
gan his public career, James B. Mc-
Creary last night accepted the nomi-
nation of the Democratic party to
the United States. He received
the nomination by a vote of 62 to 37
over Circuit Judge James E. Cantrill,
over Scott county, nearly two-thirds of
the Democratic members. He will be
elected by the general assembly in
joint session on Tuesday of next week
Senator Deboe, who was en-
dorsed by his party for re-election.
The Democratic caucus was harmo-
nious throughout, the only surprise
being that occasioned several hours
before it convened by the withdrawal
of Congressman Charles K. Wheeler
and Congressman David H. Smith, who
have been in the contest for the past
year. They withdrew only when it
became apparent that McCreary would
be nominated, and Judge Cantrill re-
mained in the race only to receive a
complimentary vote. The nomina-
tion was afterward made unanimous.
A special committee notified the
nominee of the action of the caucus.
He accepted the nomination in a few
words, and pledged himself to his con-
stituents and to his country.

Sketch of McCreary's Career.

James B. McCreary surrendered
with a Kentucky regiment to Grant
at Appomattox, being at that time a
lieutenant-colonel. He entered politics
in 1866, being chosen to represent
Madison county in the Kentucky
Legislature.
In 1875 he was elected Governor on
the Democratic ticket.
After retiring from the executive
office he was elected to the Forty
ninth Congress and re-elected to the
Fiftieth, Fifty-first, Fifty-second, Fifty-
third and Fifty-fourth Congresses.
Governor McCreary was appointed
by the President of the United States
in 1882, one of the five commis-
sioners to represent the United States
in the International Monetary Confer-
ence. In that conference he distin-
guished himself as an advocate of bi-
metallism.

GUNS SALUTE LIBERTY BELL.

Welcome Given the Historic Relic
on Its Arrival at Charle-
ston, S. C.

Charleston, S. C., Jan. 10.—The
Liberty bell under the escort of May-
or Ashbridge and the delegation from
the Philadelphia council, arrived yester-
day at 10 o'clock from Savannah.
The train was met at the station by
Mayor Smythe and the board of al-

TWIN TROUBLES

They Are Often Together These Days
They Wrok Havoc All Over the
Country and in East Liverpool.

Weak, nervous, the digestion out of
order. That is what ails a host of peo-
ple. It comes about in this way.
First from overwork or other causes,
the nerves are burdened beyond endur-
ance, nerve waste is not replaced,
nerve force is weakened. Then the
stomach loses its nerve controlling
power, and indigestion follows with
falling strength. When first Dr. A. W.
Chase's Nerve Pills came to East Liv-
erpool, people could hardly be con-
vinced that this great medicine would
remove these troubles. Now it is an
accepted fact because of their cure of
very stubborn cases no other medicine
would influence. Mrs. Margaret Tra-
cy, of 178 Seventh street, East Liv-
erpool, O., says: "One of my family was
very nervous, subject to nervous spells,
weak and irritable, could not sleep and
the digestion was very poor. I asked
the invalid to take Dr. A. W. Chase's
Nerve Pills I got at Larkins' drug
store, corner Sixth and East Market
streets. The result was splendid; the
medicine built her up, enriched the
blood, made the nerves strong, gave
restful sleep and so strengthened the
stomach that digestion is perfect. The
old-time languid, played-out feeling has
given place to one of strength and en-
ergy, and as a result we are more than
pleased with the medicine."

Dr. A. W. Chase's Nerve Pills are
sold at 50 cents a box at dealers, or
Dr. A. W. Chase Medicine company,
Buffalo, N. Y. See that portrait and
signature of A. W. Chase, M. D., are
on every package.

Manzanella Cafe

Imported Beer, Ice Cold Beer,
Munchener. Base Ale on Draught.

DINING AND LUNCH ROOM,
The finest in the city. Every-
thing in season.

Aaron R. Guthrie,
Diamond St.
Both Phones 68-

dermen of Charleston, and President
Waggoner and the directors of the
Charleston Exposition company. A de-
tachment of regulars from the artil-
lery post and several companies of
marines from the camp at the expo-
sition with a regiment of militia, was
drawn up at the station when the
train bearing the bell rolled in. As
the bell was lifted from the flat car
a salute of thirteen guns was fired.
The historic relic was placed on a
decorated truck prepared for the oc-
casion, but it was found that the wa-
gon would not bear the weight, and
the bell had to be replaced on the car
and taken to the grounds by rail.
At the exposition grounds Mayor
Smythe extended a formal welcome to
the bell and its escort, and Mayor
Ashbridge responded. Several brief
addresses were made and patriotic
airs were sung by 2,000 school chil-
dren. The bell will be placed in the
Philadelphia building.

MANHATTAN PRINCIPAL STAY

Of Market During Time of Resist-
ance to Decline—Some Fea-
tures of Market.

New York, Jan. 10.—Speculation
came to a halting place yesterday and
showed much hesitation about branch-
ing out into new courses. The sharp
upward movement in the latter part
of Wednesday's session was evident-
ly due to a drive against the shorts
which were put out in the course of
speculative liquidation on previous
days. In the absence of important
new developments the stock market
followed the normal course in the
culmination of a speculative move-
ment, the price vibrations becoming
less by degrees. There were efforts,
which persisted during the greater
part of the day, to contest the dropping
tendency of the market, and to con-
tinue Wednesday's recovery. The
marking up of special stocks was the
device resorted to. It was not very
effective at any time, although there
was a rally one time which generally
wiped out earlier losses. In the late
dealings, however, when the futility
of the efforts of the bulls became ap-
parent, tired holders began to throw
over stocks. Prices went to the low-
est point of the day and generally
closed there. St. Paul was under se-
vere pressure and lost 2 1/2. Declines
of between 1 and 2 points are nume-
rous among the prominent stocks. The
principal stay of the market during
the time of resistance to the decline
was Manhattan. This stock was tak-
en on an enormous scale by brokers
who have been active in it ever since
the present advance began. They
made it touch 140 1/2, an extreme rise
of 4 1/2, after which it reacted, clos-
ing with a net gain of 2 1/2. The run-
ning of the first experimental train
by electricity over one of the compa-
ny's lines was the ostensible cause
of the stock's strength. Metropolitan
Street Railway and Brooklyn
Transit, the latter in a small degree,
were affected in sympathy. There
was a strong advance of 7 1/2 in Pitts-
burg, Cincinnati & St. Louis on sup-
posed prospects of larger dividends,
and some of the junior Vanderbilts
were affected in a similar way. Sugar,
after an early decline, had its
period of strength under operations
based on expectation of a remission of
raw sugar duties. The stock afterwards
weakened to the lowest and closed
at a net loss of 2. The action of
U. S. Steel stocks has proved a
great disappointment to a large
element among professional specula-
tors who have been looking for a sus-
tained rise in those stocks, and an
aggressive bull leadership of the mar-
ket. Both classes of stocks were
sold yesterday both for home and for-
eign account. The hostile steps still
in prospect against the Northern Se-
curities company continued a re-
pressive influence. The market has
lost its stringent tone, but renewal of
supplies is by no means so abundant
as expected.

TWO DEAD; ONE MAY DIE.

Others Injured in Powder Mill Fire,
Near Clearfield, Pa.

Clearfield, Pa., Jan. 10.—The Rick-
eyite non-explosive powder company's
mill near here was destroyed by fire.

The Dead.

John C. Stewart.
Roy Smith.

The Injured.

G. B. Roseberry, may die.
James Blacker.
F. K. Sentmeyer.

It is supposed an explosion pre-
ceded the fire. Stewart's body was
found in the ruins of the burned mill,
the limbs having been burned from
the body.

LABOR LEADERS ENTERTAINED

Lunched at the White House—Knox
and Wilson Present.

Washington, Jan. 10.—The Presi-
dent had with him at luncheon yester-
day the Attorney-General, the Sec-
retary of Agriculture, and a notable
gathering of representatives of organ-
ized labor. They were F. P. Sargent,
chief of the Brotherhood of Locomo-
tive Firemen; E. E. Clark, grand chief
conductor of the Order of Railway
conductors; P. H. Morrissey, grand
master of the Brotherhood of Rail-
way Trainmen; H. B. Perham, presi-
dent of the Order of Railroad Tele-
graphers, and A. B. Youngson, first
assistant to P. M. Arthur, chief of
the Order of Locomotive Engineers.

AN EX-GOVERNOR

SENTENCED TO PRISON

Boston, Jan. 10.—Admitting that his
picture was in the rogues' gallery,
and that for a period of years he
has been familiar with the lowest
depths of New York opium joints, yet
pleading for mercy from the court,
Franklin J. Moses, once governor of
South Carolina, was sentenced here
to four months' imprisonment for the
larceny of an overcoat.

"Little colds" neglected—thousands
of lives sacrificed every year. Dr.
Wood's Norway Pine Syrup cures lit-
tle colds—cures big colds too, down to
the very verge of consumption.

We Are Proud

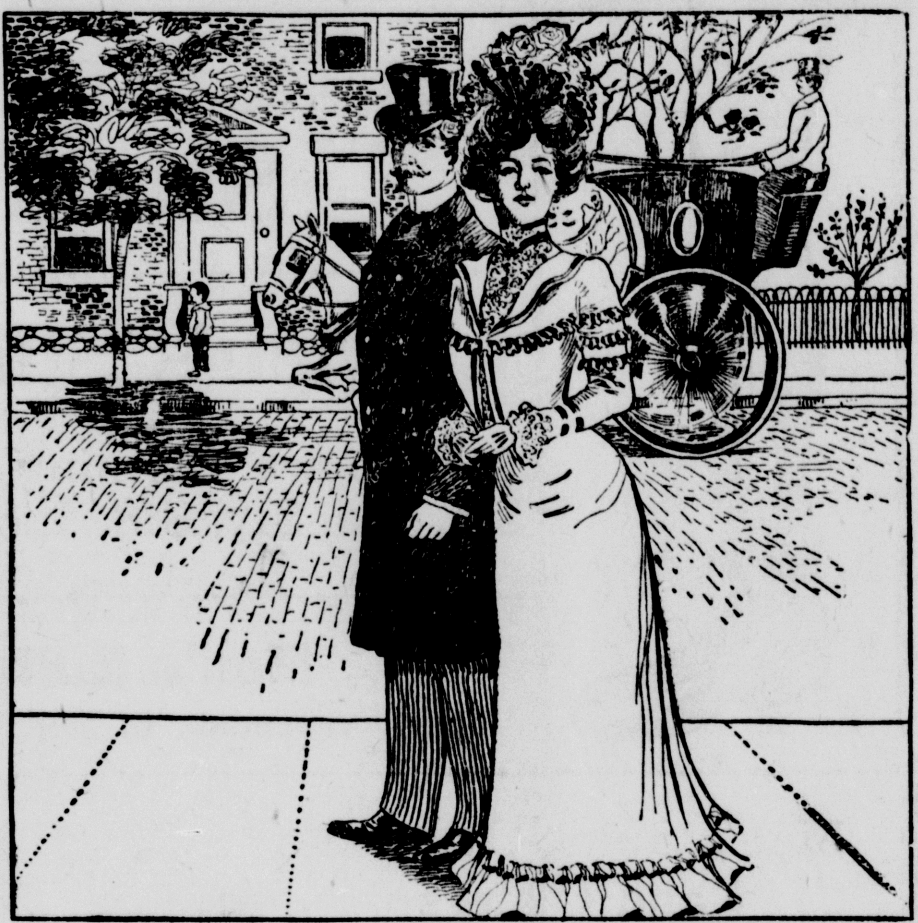

of Our

Carpet Department

And will take great pleasure in
showing you through our full line

of Carpets and Rugs. New spring Carpets are arriving now. Come
while the line is full.

ASK LEWIS BROS. ABOUT IT.

WHERE IS THE BOY THEY SEEK?

WANT TO BE AMERICANS.

Many St. Croix Inhabitants Cable Min-
ister of Finance and
Rigsdag.

St. Thomas, D. W. L., Jan. 10.—
The following cablegram, signed by a
large number of residents of the Dan-
ish West Indies, was sent from the
Danish island of St. Croix to the Min-
ister of Finance and the Rigsdag at
Copenhagen on January 3:

"Confirming the memorial of His
Majesty, King Christian, of June, 1900,
the undersigned planters, representing
38,000 acres out of a total of 50,000
acres, and merchants and other rep-
resentative inhabitants of the Dan-
ish West Indies, assert that if the
American market is not secured by
the sales of the islands, the sugar in-
dustry here will suffer severely and
will have to cease in the near fu-
ture, the prices for sugar now ruling
being below the cost of producing
that article."

Subsequent signatures secured to
this message raised the ratio of rep-
resentation to nine-tenths of the total
acreage under cultivation.

WAS SCHLEY VERDICT LEGAL?

Knox Considering This Phase of Case.
On This Depends Presi-
dent's Review.

Washington, Jan. 10.—The Post
was expected to say today:
The case of Rear Admiral Schley
is now being considered by the At-
torney-General for the purpose of dis-
covering whether there was any ille-
gality in connection with the court
of inquiry. It is understood that at
the recent conference between the
President and Rear Admiral Schley
the latter pointed out some alleged
violations of law in regard to the court,
and these matters have been deemed
worthy of examination.

The Attorney-General is not to pass
upon the merits of the case, but will
deal solely with its legal phase. If
he shall find that the court was prop-
erly constituted, that the precept was
legally drawn, and that the rules of
law were followed as to the evidence,
it will then be within the province
of the President to consider the case
upon its merits. If the Attorney-
General decides that there were ille-
galities, as claimed by Admiral
Schley, it is understood that
Admiral Schley's future course
concerning a formal appeal in writ-
ing to the President will depend very
largely upon the decision of the At-
torney-General.

NOT TO PENN'A OR WABASH.

Denial of Sale of West Virginia Cen-
tral—Will Meet Wabash at
Parkersburg.

Baltimore, Md., Jan. 10.—The Even-
ing News yesterday has a statement
from C. H. Livingston, private sec-
retary to Senator Elkins, of West Vir-
ginia, in which he is quoted as reit-
erating that gentleman's denial of the
alleged sale of the West Virginia

Central railroad to either the Penn-
sylvania or Wabash systems. He ex-
plains the reported sale as follows:
"Our westerly extension will be to
the Little Kanawha river to connect
with the Little Kanawha River rail-
road. The latter will take the West
Virginia Central to Parkersburg,
where it will meet the Wabash rail-
road. The Wabash has completed its
plans to build to Parkersburg, and
has let a contract for the construc-
tion of a bridge across the Ohio river
at that place, and approaches to cost
\$1,000,000."

Ohio Man Appointed.
Atlanta, Ga., Jan. 10.—Warden
Hawk, of the Federal prison, was no-
tified by Attorney-General Knox that
Bradford C. Rawson, of Columbus,
O., had been appointed warden of
the Atlanta prison, which will be
opened in a few days.

WEATHER FORECAST:

Western Pennsylvania—Cloudy to-
day, probably rain or snow tomorrow;
fair, colder in southern portion, light
to fresh westerly winds.

Ohio—Fair Friday, except possibly
light snow in extreme northeast por-
tion; tomorrow fair, colder in south
portion; light to fresh westerly winds.

West Virginia—Fair today; tomor-
row fair, colder; winds shifting to
northwest.

BISHOP J. W. HOTT

DIED AT DAYTON, O.

Dayton, O., Jan. 10.—Dr. J. W.
Hott, one of the most prominent di-
vines of the United Brethren church,
died here yesterday. He was for 12
years editor of the Religious Tele-
scope, the official church organ of
that denomination, and for the last 12
years a bishop in the church. The
funeral will be held here next Mon-
day.

Charged With Murder.

Towanda, Pa., Jan. 10.—Nelson
Rosa was arrested charged with the
murder on December 19 of Vespasian
Mills, of North Towanda.

The Lone Yuletide.
Where spend ye the eve of the Holy One's birth,
Oh, child who hast wandered away from my
heart?
The joy of the Christmastide fills all the earth;
Where pass ye the Yule of the year?
There stands a lone fir in the field of the dead,
Redolent with frost-tinsel beside thy white bed;
For cavities the glint of the stars overhead,
But still is thy chamber and dream.
If one of yon stars could but guide me to thee,
I'd follow its beams to the uttermost sea;
I'd hang thee my gifts on some paradise tree
If death would but let me anear.
O mother of Christ, by the love that ye bore
The Bethlehem babe, by the Christ ye adore,
Oh, find ye my motherless child, I implore,
And give her thy love's Christmas cheer.
—Harper's Weekly.

Moffat's Life Pills

The Great Stomach and Liver Medicine.

If you feel sick, bad taste in the
mouth, coated tongue, dizziness, bilious
or sick headache, your stomach and liver

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Born—To Mr. and Mrs. Fred Headley, Trentvale street, a son.

Has Sold Out—Frank E. Conkle, who for the past 16 years has conducted a milk and dairy business on Third street, has disposed of his interests.

An Evangelist Coming—Dr. E. F. Dunham will arrive in the city the middle of next week for the purpose of conducting gospel meetings at the First M. E. church.

K. of C. Organized Here—P. A. Gavin, of Toronto, is in the city visiting friends. Mr. Gavin is a state officer of the Knights of Columbus and is devoting considerable time to this work.

Teachers' Meeting—At the teachers' meeting this afternoon Supt. W. W. Boyd, of Painesville, and Dr. Wm. E. Smyser, of the Ohio Wesleyan university, addressed the teachers. Dr. Smyser speaking on "Literature."

Gift From Missionary Society—The ladies of the Home missionary society of the M. E. church yesterday sent a large barrel of clothing to a destitute minister and his wife and four children who live in a small town in North Carolina.

An Unsafe Embankment—Excavating on Grant street has left a menacing embankment, and complaint has been made that a cave-in is liable to occur and seriously injure pedestrians. A large number of children pass the unsafe bank to and from school daily and solicitous parents are behind the kick to have the spot changed.

A Colored Lecturer—Prof. William Edwards, colored, of Washington, D. C., lecturer and traveler, is located for a few weeks at Mr. Matthews'. If possible he will lecture here on "Europe, As Seen With a Negro's Eyes." Three years of foreign travel enable Prof. Edwards to deliver a very entertaining discourse. Press notices in the Steubenville papers are highly complimentary to him.

Will Entertain.

Miss Elizabeth Anderson, of the East End, has issued invitations for this evening.

Miss Fannie Bertele, Sixth street, will entertain friends next Thursday evening.

Miss Elizabeth Anderson will entertain a number of her friends at her home on Wedgwood street, East End, this evening from 7 to 11.

Men's pure linen handkerchiefs, with or without hem, were 15c to 20c, in this sale at..... **10c**

RIVER INTERESTS

QUESTION OF IMPROVED NAVIGATION A LIVE ONE.

All Along the Ohio Agitation for Government Work is Growing.

The river has been at a stationary stage of 8 feet for two days, and there is a continuance of good packet water. Floating ice is not impeding navigation.

Boats are arriving with fair regularity, but the Lorena, which was due yesterday noon, did not arrive yesterday as expected and Mr. Martindill received no dispatches as to her whereabouts. She had been caught in the ice below, but was supposed to have been repaired and able to start up this week.

The Greenwood was up and the Ben Hur came down late last night. A considerable amount of freight is being handled and East Liverpool continues to hold her own as one of the best points for shipping along the river.

Proprietor Gus Martindill has now occupied his new quarters at the lower

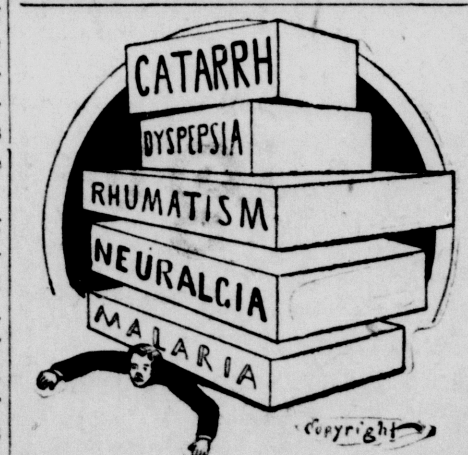

end of the wharf boat. His office is nicely carpeted and cozy. Carpenters commenced the work of remodeling the upper deck. The old waiting room and office are being turned into living apartments. A kitchen, dining room, parlor and sleeping rooms. The small pained windows are being changed to modern windows and other alterations are taking place. Painters have also begun the first coat on the exterior of the boat.

Towns along the river are agitating congressional action on the improvement of the upper Ohio, which would be invaluable to summer shipping. A citizens' meeting was held in Beaver Thursday evening to discuss the topic. To give a depth of water sufficient for the larger river boats at all seasons estimated by engineers that 93 dams are necessary. These would cost almost that many millions in money, but any partial number of dams on the upper river will be beneficial. A feeder favored by engineers in supplying water is to have a well located canal constructed between Beaver and Lake Erie.

East Liverpool needs navigation more than her sister towns above, for the Pennsylvania company furnishes

the only inlet by rail, and all year navigation would make the big corporation less dictatorial in freight rates.

The News Review for all the news.

THE PILED UP AGONY OF YEARS can be relieved immediately, and quickly cured, by something from our stock of **DRUGS AND MEDICINES.** It is only a question of getting the preparation which is best suited to the individual. In our line of Patent Medicines are certain cures for Catarrh, Dyspepsia, Neuralgia, etc. By taking the right one an end is put to pain and suffering.

19TH YEAR. NO. 8.

EAST LIVERPOOL, O., FRIDAY, JANUARY 10, 1902.

TWO CENTS.

SERIOUS WRECK ON THE C. & P.

Collision of Bellaire Accommodation and Work Train in Allegheny.

ELEVEN PASSENGERS HURT

Among the Number Being a Wells-ville Lady—Cars Were Smashed And Piled Up in Great Confusion. Passengers Wildly Excited.

The Bellaire accommodation struck a relief work train in the Allegheny yards last evening, occasioning the serious injury of 11 persons, among whom was Mrs. Barney Householder, of Wellsville. She received a bad cut on the face and several cuts and bruises about her head and back.

Mrs. Householder is the proprietress of a general notion store on lower Main street, Wellsville, and was in Pittsburgh yesterday buying a stock of spring grades. When seen this morning by a reporter she did not present the appearance of one who had so narrowly escaped death. Her wounds had been dressed and although a little nervous from the excitement which always follows a wreck of the kind she was apparently in her usual health.

The wreck was a most exciting one. As a result of it the down passenger train due here at 7:33, was over three hours late.

The following were injured: MRS. B. F. HOUSEHOLDER, of Wells-ville, cut and seriously bruised.

MRS. J. C. BUTLER, Ontario street, Allegheny, bruised about the side. J. W. MOORE, yardmaster, resides at 327 Calhoun avenue, Allegheny, cut about the face and head.

J. F. MURRAY, yard conductor, 16 California avenue, Allegheny, right arm sprained.

R. M. ABEL, engineer of the Bellaire accommodation; home in Bellaire; back injured and cut about the head.

W. SWARTZ, conductor of the accommodation; left arm bruised and cut about the body.

D. H. MAYES, fireman of the accommodation; resides at Bellaire; injured about the back.

WILLIAM EMMETT, fireman of the engine of the relief train; resides in lower Allegheny; left ankle sprained.

M. R. OSBOURNE, brakeman, of 1218 Washington avenue, Allegheny; face bruised.

H. A. NYE, brakeman on the accommodation; resides at 217 Smithton avenue, Allegheny; cut above the head and back and seriously bruised on the left side.

R. SMITH, car inspector; resides in lower Allegheny; cut about the face.

Most of the injured were removed to their homes in carriages, while others living more distant were sent home on trains.

The Bellaire accommodation train left the Ft. Wayne station in Allegheny at 5:55 o'clock, city time. A few minutes later it struck the work train, consisting of an engine and two cars, which was also going west and which was just entering the main track upon which the passenger train was running. The passenger engine, going at the rate of 35 miles an hour, struck the other engine and the sides of the coaches struck those of the work train.

When the cars crashed together they were raised up and derailed. The sides of the cars attached to the work train were completely stove in, and the passenger train, except one car, was almost completely ruined. The engine of the passenger train was battered up and was overturned. The other locomotive was also rendered almost useless.

The accommodation train carried about 150 passengers. Only two passengers were seriously hurt, though others were slightly bruised. The responsibility for the wreck has not been fixed. It is claimed the work train had the right of way.

The cab of the passenger engine was almost completely torn off, and Engineer Abel only escaped fatal injuries by jumping when his engine went over on its side. Fireman Mayes was less fortunate. When he felt the engine turning over he prepared to jump, but before he could move to save himself he was thrown out over the yard tracks for a distance of about 50 feet and had his back badly injured.

When the engine turned over on its

side the accommodation was brought to a sudden stop and the panic-stricken passengers, some of whom were cut by flying glass, were taken from the cars by the yard employees. Many of the passengers suffered considerably from shock and had to be attended to by the physicians who were called to the scene of the wreck. As soon as another train could be made up it was sent to the Manchester yards and the passengers sent on their way.

Besides wrecking the coach of the work train, the front trucks of the tender on the passenger were completely torn out from under the tender and the piston rod on the express engine, with the driving arm, was torn completely off the engine. The employees' coach was badly splintered and the tracks for about 100 feet were torn up.

On the wrecked train were several persons from East Liverpool. They were shaken up but none injured. Mrs. William Patterson, of the East End, was on the train and also Alfred Meanor.

PROJECT IS FAVORED

PHOENIX CLUB'S SCHEME EX-CITES MUCH INTEREST.

Members of Other Clubs Express a Desire to See the Proposed Home a Reality.

The project which has been taken up by the Phoenix club to purchase the post office building and enlarge the structure for the accommodation of other similar local organizations has occasioned considerable comment.

Many members of almost every club in the city heartily endorse the scheme and express a desire to see it successfully carried through. The project for the present, at least, is left to the decision of the members of the Phoenix club, who are alone negotiating for the purchase of the post office building.

It is the opinion of a number of the interested ones that an equally desirable location can be secured with a smaller outlay of capital than is required in the purchase of the building now being sought, while others think that the clubs should share equally in the cost and erect a new building.

However, there is little doubt in case the Phoenix boys carry out their ideas as now in contemplation that those of the other interested clubs will quickly "get in the swim" and lend their cooperation.

OIL PROSPECTS

ARE EXCELLENT ON THE LEASE OF C. A. SMITH.

Most Encouraging Indications Which Lend Impetus to Turkeyfoot Field Work.

C. A. Smith and James Flood returned from the Turkeyfoot oil field last evening, where they located a well on Mr. Smith's lease.

Arrangements were made to begin drilling early next week, and the prospects seem bright for a good producer.

A well being drilled on the Ramsay farm of the Miller & Murray lease began to flow at a rapid rate yesterday, while but two bits in the sand. The oil rose for a distance of 575 feet and caused a considerable amount of inconvenience and some apprehension. Work was suspended at once and the drillers set about making changes in the apparatus without delay.

The engine was moved farther away from the well today, and it is thought everything will be in readiness by morning to resume the drilling. The work will be continued until the bottom of the sand is reached.

Work in the Smith's Ferry field is going steadily forward. Three firms, the Forrest Oil company, Kitchlow & Kirk and the Gaylards, have located wells, but to the present no favorable indications have been noted.

POLICE OFFICER FIRED

The New Brighton Copper Who Used His Mace on a Watchman Loses His Job.

New Brighton, January 10.—As a result of the fight which occurred here Wednesday night between Watchman Pat McGhee and Policeman Nowling, in which the latter used his mace with fearful effect, a meeting of the borough police committee was called yesterday and Nowling dismissed from the police force. Henry H. Deltrich will succeed him.

Nowling is now under bail to answer to the charge of felonious assault and shooting with intent to maim and disfigure McGhee.

THE GAME LAW IS A FAILURE

Deputy Game Warden Wilfing, of Wellsville, Says It Is Poorly Observed.

RECORD OF THE PAST YEAR

In Columbiana County Was Two Arrests And Two Convictions—The Provisions of the Statutes Not Regarded As Strong Enough.

Columbus, Jan. 10.—(Special)—C. L. Wilfing, of Wellsville, deputy game warden of Columbiana county, has filed his annual report with Chief Warden Reutinger, of the state game and fish commission. It shows that during the year five violations of the game laws were reported, two arrests were made and two convictions secured. The fines collected amounted to \$34. Two violations of the fish laws were reported, but no arrests were made.

Deputy Wilfing reported that the laws were not generally observed, and attributed this to the fact that violators were fully aware of the laxity of the statutes and the difficulty to secure convictions under them. He declared they are weak in that they are not sufficiently binding. He traveled 35 miles during the year in the pulp of his official duties, and reported quail as being plentiful during the open season and scarce prior to that time.

Pheasant was scarce and rabbits and squirrel were not as numerous as in former years. The annual report of the game and fish commission will probably be submitted to the governor this week. It will embody the new bill which is designed to correct the idiosyncrasies of the present game laws. Senator Archer helped to draft the new bill and it is expected that he will introduce it in the senate.

BOTHERED BY TRAMPS

Northside Residents Ask the Police to Apprehend the Vagrants.

A number of residents of the Northside have complained at different times at police headquarters that tramps have been annoying them. One or two of the roadsters, it is claimed, have been begging food and clothing for several days, and on one or two occasions frightened women.

The police have made frequent investigations in the infected district, but have been unable as yet to locate any of the troublesome tramps. It is thought they are members of a gang that has been holding out in the Klondike, in the East End.

However, there have been no reports of any serious depredations having been committed by the tourists.

RELEASE OF MISS STONE

London Has Advices That It Will Be Effectuated in a Few Hours.

London, January 10.—(Special)—The release of Miss Ellen M. Stone, the missionary who has been held captive since last September, is believed to be a question of only a few hours.

An official telegram received here this afternoon states that dispatches from Constantinople received after midday today say that the release of Miss Stone will soon be effected.

TRUST COMPANY ASSIGNS

A Cleveland Concern Puts Its Affairs Into the Hands of an Assignee.

Cleveland, January 10.—(Special)—The Euclid Avenue Trust and Savings company made an assignment today to Attorney Frank H. Grinn.

Conkle Issues a Challenge. Representatives of Conkle, the Salem wrestler, were in the city during the holidays and challenged a local wrestler, but as yet neither Conkle nor his friends have been heard from, although the East Liverpool man gave a favorable reply. The latter is willing to meet any other wrestler of 136 pounds.

Sold Out for \$1,000. Lisbon, January 10.—(Special)—D. B. Douthett, of Wilkinsburg, Pa., who purchased the Helman news stand on January 1, sold this morning to Bert Burns, of this city. Consideration \$1,000.

VISIONS OF RICHES FOR INVENTORS

Wellsville Men Have Refused \$20,000 For a Device For Railroad.

LOOK FOR A FORTUNE

The Invention a Nut Lock for Steel Rails Which Is Claimed to Be One of the Best Devices of the Age. Patent Applied For.

Messrs. Hugh Anderson and C. C. Lawson, life long residents of Wells-ville, are interested in a nut lock invention, which, it is expected, will be the means of enriching them to the amount of many thousands of dollars. The lock, which is to be used on nuts that are applied to braces by which steel rails on railroads are made secure, is the invention of Mr. Anderson, who perfected it last November after four years of unremitting study and work.

Mr. Anderson not being able to push his invention appealed to Mr. Lawson for assistance, and they have received very encouraging reports from it. A patent was applied for December 1 and they expect a notification of its being granted by the patent office at Washington in a few days. Although the lock in appearance is of simple mechanism, no one but an adept in machinery could well describe it. Mr. Lawson, when asked for a statement in regard to the invention, said:

"It is pronounced by eminent machinists of the country to be the greatest invention of the age. To the railroads of the world it will be invaluable. Mr. Anderson and I have been offered \$20,000 for it, but did not even consider the offer. We expect to be made immensely rich through the sale of the invention, because within a few years the 200,000 miles of steel rails laid within the boundaries of the United States will be connected with bolts on which are our locks.

"The bolt with the lock and washer weighs one and one-quarter pounds and will cost only 3 1-2 cents per pound. By request of the Pennsylvania and Pittsburgh and Lake Erie railroads we have given them a number of the locks which are to be tested on their roads for six months. If they prove to be a success these companies have agreed to adopt them. There are a few of the locks under a test at the West End shops, and the master mechanic thinks it a perfect device."

JACKSON-BAXLEY

Quiet Marriage of Well Known Young People at the County Seat.

Lisbon, January 10.—(Special)—George Clinton Baxley and Miss Eva L. Jackson were married last evening at the home of the bride's father on the Canton road. The wedding was a surprise to the friends of both young people. None but relatives were present. The ceremony was performed by Rev. George Fowler.

The bride is the daughter of Mail Clerk Daniel H. Jackson and is an accomplished music teacher. Mr. Baxley is a young man who has recently been taking a course in stenography and has been appointed as clerk to the judiciary committee in the state senate.

CONNER-BUCHER

Well Known Young People United in Marriage By Rev. J. W. Gorrell.

Too well known young people were married last evening at 8:30 by Rev. J. W. Gorrell at the parsonage of the Christian church. They were William Bucher, of the Calcutta road, and Miss Sophia Conner, of Fourth street. Miss Conner is the organist of the Christian church Sunday school.

The couple went at once to their new home on Orchard street in the McKinnon addition.

EXCELLENT CONCERT

In the High School Course Given By the Boston Ladies' Orchestra.

The entertainment in the high school course last evening was one that was thoroughly enjoyed by the large audience present. The Boston Ladies' Symphony orchestra, under the leadership of Frank W. McKee,

with Carl Crance, of New York, basso soloist, gave a concert of much excellence. The ladies look well and play better. The program of 10 numbers, considerably lengthened by encores, included both classical and popular airs.

Particularly pleasing were the soloists—Miss E. Ralphina Parsons, trombone; Miss Florence E. Beckett, flute, and Miss Mabel Beaman McKee, violin. Miss McKee was especially good. Carl Crance, the solo vocalist, was down for only one number, but he had to sing three selections ere the audience, even then reluctantly, allowed him to go. He has a bass voice of great strength and compass and sings without apparent effort. His was by far the most satisfactory feature of a performance in which all the artists acquitted themselves most agreeably. His rendition of the "Beware" song from "Robin Hood" was of striking excellence.

The orchestra was much better than that which appeared last year, and Prof. Rayman is to be congratulated on securing such an excellent entertainment.

A BAPTIST CHURCH

EFFORT TO RAISE MONEY FOR LOT AND BUILDING.

Pastor Owens Made Financial Agent And at Work With That End in View.

There is now being put forth an effort to raise money for a lot and building for the First Baptist church. The hall in which the meetings have been held is inadequate to meet the needs of the growing church organization a little over a year ago.

By recent action of the church, Mr. Oscar L. Owens was made financial agent and will superintend the work of raising money for the enterprise.

The members of the church will do what they can and an opportunity will also be given to all the people of East Liverpool to contribute to this worthy object. Cash subscriptions will be received at any time and those desiring to make monthly or annual payments may secure pledge blanks by applying to the financial agent.

K. OF C. MEETING

At Zanesville Next Sunday Will Be Attended By Local Knights.

A number of the members of the local lodge, Knights of Columbus, will go to Zanesville next Sunday, where the first, second and third degrees will be conferred upon a large class of eligible members.

An attempt was made to induce the railroad companies to run special trains to Zanesville for the occasion, but it was impossible to do so. Had the attempt been successful a very large crowd would have attended. As it is, only a few intend going from the several towns along the river.

FOR POSTAL POSITIONS

An Examination of Candidates Will Be Held Here on January 29.

An examination for the positions of postoffice carriers and clerks will be held in this city January 29. The examination will consist of spelling, arithmetic, letter writing, penmanship, copying from plain copy, geography of the United States and reading addresses.

The age of limitation is from 18 to 45 years. Applications can be made to John E. McClure, secretary of the board, up to and including January 25 and all information will be furnished by him.

INTEREST CONTINUES

In the Meetings at the First Methodist Episcopal Church.

A very large congregation assembled last night at the M. E. church, manifesting increasing interest. Dr. Clark Crawford took as his text, "Now."

When the invitation was extended five persons went forward. Four of them professed conversion.

HEARING WAS PRIVATE

Witnesses Examined in the Case of Burgess Vs. West End Pottery Company.

Judge W. W. Hole, of the common pleas court, was in the city today. At the city hall several witnesses were heard in the case of William Burgess vs. the West End Pottery company. The hearing was private, even Mayor Davidson being excluded.

GAS EXPLOSION AT CHESTER MILL

Clark Vermillion Blown Fifteen Feet and Most Painfully Injured.

HEAD AND FACE SCORCHED

But Dangerous Hurts Were Fortunately Avoided—The Accident of a Peculiar Nature And Entirely Unexpected—Nobody Else Hurt.

As a result of a terrible explosion of gas in the mills of the American Tin Plate company in Chester early this morning, Clark J. Vermillion was painfully injured. He has been employed as a "pair heater" in the mills and was in the discharge of his duties when the accident occurred. He was working at the mouth of one of the large furnaces and without thinking of the possible results, he too suddenly raised a damper which controls the fire in the furnace and the explosion followed.

The door of the furnace was blown violently open and an immense volume of gas and smoke belched forth, striking him full in the face and precipitating him backward to a distance of 15 feet. In a badly crippled condition he was removed from the mill to his home, where a physician was summoned. Upon an examination it was found that his injuries, although painful, were not dangerous. His face and head and parts of his body were terribly burned. No one else was near at the time.

Mr. Vermillion has been a resident of the city for years. Until recently he was agent for the Reymann Brewing company, of Wheeling.

A VERY CLOSE CALL

Passenger Train and a Loaded Team Came Near Colliding.

When the 4:06 passenger train pulled in from the west last evening it approached the depot at a rapid rate. A dray of casks was being hauled from the Severs China company and the driver had a narrow escape from getting his team, if not himself, in a frightful collision. The horses had stopped on the track, but were pulled back and slightly turned, the train rubbing the side of one of the animals. Fortunately there was no injury done.

At the Broadway crossing, notwithstanding the fact that there are gates and a company tower man, there are close calls from serious accident almost daily.

State Farmers Will Meet

The state farmers' institute and the annual meeting of the Ohio state board of agriculture, will take place at Columbus on January 14, 15 and 16. The exercises will be interesting and instructive to all persons who follow agriculture for a living. A number of farmers from this locality will attend.

Tenants Are Without Heat.

The hot water heating system at the J. C. Thompson building sprung a leak yesterday and as a result the tenants are compelled to do without heat today. Workmen began early this morning on the work of repairing the defect.

Commissioner Appointed.

Lisbon, January 10.—(Special)—A commission has been issued to William Hill to read and explain to Helena Wheeler, widow of John E. Wheeler, of Liverpool township, the provision of her husband's will.

Special Sermon.

Rev. J. G. Reinartz, pastor of St. John's Evangelical church, will preach a special sermon Sunday evening on the subject: "The Gospel in the Stars."

Valuable Horse Dies.

A horse valued at \$150, owned by Liveryman Miller, died last night.

Child Scalded—A four-year-old daughter of Edward Eisey, of Sheridan avenue, was severely scalded about the neck and face last evening by accidentally overturning a pan of water which was standing on a stove. Mr. Eisey recently moved here from Bellaire and about six months ago the same child that is now suffering from its burns met with a similar accident.

The Evening News Review is the largest and newest East Liverpool paper.

EAST END

MISSIONARY WORK

Interestingly Discussed by Second Presbyterian Church Ladies. Encouraging Reports.

A most interesting missionary meeting was held by the ladies of the Second Presbyterian church at the home of the Mesdames R. and W. E. Baird, on Mulberry street, yesterday afternoon. It was the first session of the new year and largely attended.

The general subject of the home field was "A Century of Home Missions." The subject on the foreign branch was "The Open Door." Papers that were instructive and interesting were read and discussed. Reports from the different committees exhibited gratifying progress by the society which has grown in membership and effective zeal. At the conclusion of the exercises an hour was spent in social interchange and a substantial luncheon was a happy feature of the meeting.

FELL IN A HOLE

Roy Myers and His Younger Brother Narrowly Escape Serious Injury.

An accident befell Roy Myers, aged 17, and his brother, two years younger, on St. George street last evening. They had dug a vault 15 feet deep, and had reached the top in climbing out when the younger had lost his balance. Roy Myers endeavored to rescue him from a dangerous fall when both tumbled to the bottom. The elder of the two struck on his head and was rendered insensible. Severe bruises were sustained by each, and neither could get out until neighbors heard calls for assistance and helped them to the top.

In bounding against the wall of the excavation the force of the fall was broken, else a fatality might have happened.

Dramatic Club Progressing.

The East End Dramatic club is getting along nicely. It is the intention to form a repertoire of operatic pieces. So far seven young men and five ladies are in the caste. They will hold a meeting Tuesday evening in Chambers' hall for further perfection of the club.

Forming a Football Team.

An association football team is being organized by operatives of Laughlin No. 2. Daily practice games are being held and a lineup of crack players can soon be announced. It is the desire of the club to go against other local elevens.

P. H. C. Meeting.

At a meeting of the East End Protected Home circle held this week several members were admitted to the organization. It was decided to hold sessions twice a month. A special meeting will be held in a few days.

EAST END AFFAIRS.

M. J. Kerr is laid up with a severe attack of rheumatism.

The week of prayer has been fraught with very interesting meetings in all of the East End churches. There was a large attendance last evening at the Columbian park dance. Several couples were present from Wellsville.

Street work, the building of new cinder walks, and the filling of holes has been done by the city in the Klondike during the week.

It is said that scarcely a vacant lot will exist in "the Orchard," at the extremity of St. George street, by the end of a few months, as all of the owners contemplate the erection of dwellings.

Delay has occurred in the construction of the Erie street M. E. parsonage. A small amount of excavating was done a few weeks since, but work will perhaps not be actively begun before spring.

TROLLEY CAR TO MT. SINAI

American System of Rapid Transit Rapidly Winning Its Way In the Orient.

Cleveland, Jan. 10.—The trolley car is about to displace the patient donkey as a means of locomotion in the orient. A company of Cleveland and Chicago capitalists, incorporated as the Cleveland Construction company, has been successful in negotiating, through J. F. Spanier, of Rome, Italy, for concessions for electric lines from Cairo, Egypt, to Mt. Sinai, and thence along the coast of the Red sea through Syria and Arabia to Mecca. A branch is to connect Damascus with the system at Mt. Sinai.

It is argued that the business during the period of a single Mohammedan pilgrimage to Mecca, whither it is the pious duty of every Mohammedan to go, will pay a handsome profit on the cost of construction. Letters received from Senor Spanier say the Sultan of Turkey has gained the necessary concessions for the system.

Already trolley cars are running from Jerusalem to Galilee. The Cleveland Construction company is working under an agreement to finance all undertakings if the constructions contracts are awarded to it.

REMOVED TO PEST HOUSE

Smallpox Patients at Mingo in New Quarters—Health Board Active at Brilliant.

Mingo, January 10.—The three smallpox patients at the hotel here were removed to the pesthouse yesterday and are living on the fat of the land. Those in the hotel who have been successfully vaccinated will be released after being newly clothed and all others moved to a house of detention.

The board of health of Brilliant met last night and passed a resolution prohibiting the citizens of Mingo from attending entertainments of all kinds in the village of Brilliant during the continuance of similar action taken by the board of health of Mingo, and also called off a public dance which was to have taken place this evening.

BEAVER MAN IN TROUBLE

Pleads Guilty to Forgery and Obtaining Money Under False Pretenses.

Beaver, Pa., Jan. 10.—John Straub, a prominent citizen, charged by Cashier John C. Campbell, of the Rochester National bank with forgery and obtaining money under false pretense, was given a hearing before Justice Cargo last night where he pleaded guilty and was taken to jail to await the action of the grand jury.

A warrant was also ordered for the arrest of a man named Burdick, who is alleged to have been implicated in the affair.

Charged With Killing.

Youngstown, January 10.—Joseph Ott, who is charged by John A. Wilson with causing the death of his father, Andrew Wilson, aged 75, by hitting him on the head with a poker, was arrested on the charge of assault. He was later released on a bond of \$200.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Alvin H. Bulger, Druggist.

CANAL BILL PASSED

In the House, Almost Unanimously—Only Two Votes Against It.

ALL AMENDMENTS REJECTED.

During Debate, Preceding Final Vote, Hepburn and Cannon Had Controversy—Some Features of the Measure—Cost Fixed at \$120,000,000.

Washington, Jan. 10.—The Hepburn Nicaragua Canal Bill passed the House late yesterday afternoon by a practically unanimous vote. Only two members out of 310 voted against it. Messrs. Fletcher (Rep.), Minnesota, and Lassiter (Dem.), Virginia, were the two voting in the negative. The opposition to committing the government to the Nicaraguan route to attempt to secure amendments to the Panama canal, if it could be purchased for \$40,000,000. The test came on the first vote, when the advocates of an alternative route polled 102 against 170 votes.

Strength Gradually Dwindled. At each succeeding vote their strength dwindled until Mr. Cannon, of Illinois, under whose leadership the fight was made, was unable to get the ayes and noes on a motion to recommit. All other amendments failed, and the bill passed exactly as it came from the committee. None of the votes except that on the final passage of the bill was a record vote. The debate which preceded the taking of the final vote was made memorable by a clash between Mr. Hepburn, the author of the bill, and Mr. Cannon, chairman of the Appropriations Committee. On several previous occasions they have measured swords over canal legislation. Two years ago a similar bill was passed by a vote of 224 to 36.

Some Features of the Bill. The bill as passed yesterday authorized the President to secure from the States of Costa Rica and Nicaragua in behalf of the United States, control of such a portion of the territory belonging to said States as may be desirable and necessary on which to excavate, construct and protect a canal suitable to the wants of modern navigation and commerce, and appropriate such a sum as may be necessary to secure the control of said territory. Section 2 authorizes the President, after securing control of the needed territory, to direct the Secretary of War to construct such canal from the Caribbean Sea at a point near Greytown, in Nicaragua, by way of Lake Nicaragua, to a point on the Pacific Ocean near Brito, and also to construct proper harbors at the termini of said canal, and to make necessary provisions for the defense of the canal and harbors.

President Can Order Surveys. Sections 3 and 4 authorize the President to make such surveys as may be necessary, and to employ such persons in constructing the canal as may to him seem wise, and directs that in the construction of the canal the river San Juan and Lake Nicaragua shall be used as far as they are available. Section 5 authorizes the President to guarantee to the States of Costa Rica and Nicaragua the use of the canal and harbors, upon terms to be agreed upon, for all vessels owned by said States and by citizens thereof.

\$120,000,000 Total Cost. The last section makes a present appropriation of \$120,000,000 to carry on this work, and authorizes the Secretary of War to enter into proper contracts for material and work as may be deemed necessary therefor, such work and material to be paid for as appropriations may be made from time to time. The section fixes the aggregate cost at \$120,000,000, to be drawn from the treasury on warrants to the President.

TO REPORT COINAGE BILL.

House Committee, By Majority Vote, So Decided. Washington, Jan. 10.—Yesterday the Committee on Coinage, Weights and Measures, by a party vote, ordered reported to the House a bill providing for the maintenance of the legal tender silver dollar at a parity with gold, and for the increase of the subsidiary silver coinage. The measure was introduced by Representative Hill, of Connecticut. It was considered last year in Congress.

The action was opposed by the Democratic members. Mr. Shafroth, of Colorado, sought to have the vote deferred one week in order that Alexander Delmar, a writer on economic subjects, might be heard. This was voted down, as were all other motions to defer action. It authorizes the coinage of subsidiary silver coin without regard to limit, and as public necessity may require. The most important feature of the bill, for the parity of gold and silver dollars, is as follows: "The Secretary of the Treasury is hereby directed to maintain at all times at parity with gold the legal tender silver dollars remaining out-

CONGRESS AND THE CUBANS

By Congressman CHARLES H. GROSVENOR of Ohio

FAIL TO SEE THAT WE ARE UNDER OBLIGATIONS TO SHOWER BENEFITS UPON THE CUBANS AT THE EXPENSE OF OUR OWN PEOPLE. After Cuba has organized a government which is national in scope and responsible I am willing to do whatever may be wise in the way of helping the Cubans if in so doing no American industry now protected by our tariff policy is harmed. I am and will be in the future a supporter of the national policy of the administration; but, speaking for the present and independently, I see no reason to hasten to aid Cuba's commerce.

WE HAVE CERTAINLY DONE A GREAT DEAL FOR THE CUBANS, AND I DO NOT SEE THAT WE OWE THEM ANYTHING. WE RELEASED THEM FROM THEIR OPPRESSOR, AND THEY HAVE SHOWN THEMSELVES TO BE ABSOLUTELY UNGRATEFUL. THEY HAVE MANIFESTED NO SPIRIT OF APPRECIATION.

It would seem that the old Spanish hostility to us still prevails. I certainly am not in favor of doing anything in the line requested by the Cubans IF IT WILL HURT THE AMERICAN BEET SUGAR INDUSTRY. Last year we produced one-third of the beet sugar that enters into our consumption of sugars of all kinds, and there is every reason to believe that if the industry is still further protected we will eventually raise all the beet sugar sold in the United States.

standing; and to that end he is hereby directed to exchange gold for legal tender silver dollars when presented to the treasury in the sum of five dollars or any multiple thereof; and all provisions of law for the use or maintenance of the reserve fund in the treasury relating to United States notes are, in the discretion of the Secretary of the Treasury, hereby made applicable to the exchange of legal tender silver dollars.

WAS ENGINEER TO BLAME?

Smoke and Steam From Locomotives Obscure Lights in New York Tunnel.

New York, Jan. 10.—At the Grand Central station it was said yesterday that as the district attorney had commenced an investigation to determine the cause of and responsibility for the wreck in the New York Central

WILLIAM TRAVERS JEROME.

tunnel, the railroad officials had definitely postponed their investigation, and would present all the facts in their possession to the county prosecutor.

Another investigation will probably be made by President Cantor, of the borough of Manhattan. Mr. Cantor said in part yesterday: "My opinion is that if electricity had been used by the railroad the accident would not have happened. I visited the scene of the wreck the night of 9:30 last night. I watched the trains passing through the tunnel. The volumes of smoke from the locomotives filled the tunnel so that it was impossible to discern the lights."

In New Rochelle, where all but one of the dead live, business was almost entirely suspended yesterday. The district attorney's inquiry was held behind closed doors. Mr. Jerome presided. At the conclusion he announced that as far as the evidence which is to be submitted to the coroner at the inquest is concerned the investigation has practically been concluded. He added, however, that the investigation will be carried on for some time yet and that more witnesses will be examined this week.

He admitted the present grand jury may be asked to act in the matter. All the evidence went to show that the engineer was a careful man and of good reputation, both as a citizen and an employee. It was learned, though, that Wischow passed his examination as engineer only last August. Before that he was a fireman. Of late he had been acting as engineer at intervals.

There has been no further deaths among the injured and all are doing as well as could be expected.

ORDERED DESIGN FOR MONUMENT TO M'KINLEY. Raleigh, N. C., Jan. 10.—Information comes from Durham, N. C., that Hon. J. R. Duke has ordered from an Italian sculptor a design for a heroic bronze statue of President McKinley. Mr. Duke, it is understood, wishes the South to erect the first memorial to the martyred President and will place this figure in the college park of Trinity College, at Durham.

COUNTY AND NEIGHBORHOOD

The Martin's Ferry council is considering the installation of a garbage crematory.

A Pittsburg syndicate will build a sanitarium on the Woods litha farm near Bridgeport, O.

J. H. Simms, of Rochester township, has been appointed mercantile appraiser of Beaver county, Pa.

James Allen, a prominent farmer was found dead in a road near Washington, Pa. It is believed he was murdered.

Akron citizens yesterday decided to contribute \$40,000 toward the establishment of a Young Men's Christian association.

Captain William Prince, a veteran steamboat man, has announced his candidacy for city police sergeant on the Democratic ticket at Wheeling.

Miss Natalie Brown, a Youngstown girl, chased a thief, who had stolen her pocketbook, for several blocks, but he got away. The purse contained \$20.

Fred Lee, aged 32, of Parkersburg, weighing 101 pounds was married at Gallipolis to Miss Myrtle Long. She is 16 years old and weighs 432 pounds.

Mrs. Marie B. Woodworth, a noted evangelist, formerly of Lisbon, and Samuel P. Etter, of St. Louis, Mo., were lately married at Round Prairie, Ill.

F. C. Gregory, aged 44, a well known C. & W. trainman, fell from the C. & P. creek bridge in Bridgeport, and was instantly killed. He leaves a family.

The teachers in the public schools of Donegal township, Washington county, Pa., have struck because the board of directors refuse to grant them an increase in salary.

George Spellman, an Austrian aged 49, slashed his throat with a razor in a corn field near Canonsburg, Pa., and was found dead a few hours later. He had quarreled with his wife.

The operation of the special ripper law for Beaver county, by which the poor directors were ousted from office Jan. 1, is said to be causing much suffering among the poor, who are unable to obtain relief.

Trainmen on the C. & W. railroad think they should be paid the same wages as the men on the main line of the B. & O. They propose to send a committee to Baltimore to confer with the officers of the company as to an increase.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil. Monarch over pain.

Moffat's Life Pills are truly the woman's best friend, because they cure all female obstructions and general weakness. Try them.

Kindly Take Notice that Ely's Liquid Cream Balm is of great benefit to those sufferers from nasal catarrh who cannot inhale freely through the nose, but must treat themselves by spraying. Liquid Cream Balm differs in form, but not medicinally from the Cream Balm that has stood for years at the head of remedies for catarrh. It may be used in any nasal atomizer. The price, including a spraying tube, is 75 cts. Sold by druggists and mailed by Ely Brothers, 56 Warren street, New York.

For County Commissioner. As I announced my full intentions last spring of being a candidate for the office of County Commissioner, notwithstanding other reports, I wish to say to my friends and the public in general, that I have never dropped out of the contest and ask for your earnest support in my canvass. R. G. BOYD. 165-1f

STAR BARGAIN STORE.

FRIDAY, JANUARY 10, 1902.

Members of the United States sen-
 ate who are recognized leaders have
 taken alarm at the progress of the
 movement for the election of senators
 by the people. Resolutions from six
 states have been received already in
 this congress and referred to the com-
 mittee on privileges and elections of
 the senate, asking the submission of
 an amendment to the federal consti-
 tution under the provision of article
 5, to a convention to be called upon
 the application of the legislatures of
 two-thirds of the states. The states
 which have been heard from thus far
 are Colorado, Michigan, Montana, Or-
 egon, Idaho and Nevada. If 30 states,
 through their legislatures, make such a
 demand the congress must act. More
 than 30 states have already declared
 in favor of the election of senators
 by the people. There is no general
 opposition to the plan save in the
 United States senate. It begins to
 look as if the reform were bound to
 come.

The new code bill, backed by the
 state bar association and the state
 board of commerce, having for its ob-
 ject a uniform system of municipal
 government for Ohio cities and towns,
 will come prominently before the leg-
 islature at an early date. Of course
 it will be vigorously opposed, be-
 cause it is to the interest of a lot of
 people to oppose it. But the opposi-
 tion will not come from a majority
 of taxpayers nor from those who are
 interested in good government. Local
 conditions do not vary so much that
 all Ohio municipalities cannot safely
 be placed under one code, provided it
 be a wise one. Effort in that direc-
 tion certainly deserves to be encour-
 aged.

The Michigan and Ohio members of
 congress, whose districts touch the
 lakes, are interested in a bill being
 prepared by the secretary of the navy
 providing for the establishment of a
 naval training station on the great
 lakes. The secretary says that one is
 needed very much and he hopes con-
 gress will make the necessary pro-
 vision. The states bordering on the
 great lakes form no inconsiderable
 part of the country. They are capable
 of strengthening the navy greatly, as
 they have done in the past. The sea
 shore is distant, and a lake training
 school would be valuable, both to the
 naval militia of the central states
 and to the country at large.

Not to be outdone by the Parisians,
 the managers of the coming St. Louis
 exposition are going to have balloon
 races that will attract the attention
 of the world. A prize of \$200,000 is
 to be awarded to the inventor of the
 best dirigible balloon. A Chicago Dar-
 ius Green already has his airship in
 process of construction, and numerous
 others will undoubtedly follow suit.
 Progress in aeronautics has been so
 rapid of late years as to lead to the
 hope that the great problem may be
 completely solved during the twen-
 tieth century. And in bringing about
 that result it will be strange if Yan-
 kee ingenuity does not figure conspic-
 uously.

The champion absent minded cler-
 gyman appears to be Rev. Joseph M.
 Avann, presiding elder of the Toledo
 Methodist Episcopal district. He is
 54 years old and has been marrying
 couples for 25 years, yet when he
 came to get married himself he for-
 got to get a marriage license. The
 minister who performed the ceremony
 neglected to ask for one, thinking no

preliminaries had been neglected,
 and it is now said the presiding elder
 must be remarried.

Iceland and Greenland cut but a
 small figure in the world, but they
 propose to do better. Iceland, it is
 said, intends to spend \$45,000 to es-
 tablish communication between her
 shores, Greenland, the Faroe islands
 and Canada by means of the Marconi
 system of wireless telegraphy. The
 distant nations of the earth are likely
 to derive most of the earth are likely
 system of communication, when once
 it is put in successful operation.

The Republican county central com-
 mittee announces that it will meet at
 Lisbon on Friday forenoon, Jan. 17,
 "in conjunction with the aspirants for
 nominations at the coming county pri-
 maries," to fix the date for the primar-
 ies and transact other business. The
 meeting is an important one and
 should be attended by all interested
 parties.

Pitchfork Tillman says President
 Roosevelt is "utterly incapable" of per-
 forming the duties of his office. It is
 indeed fortunate that the Tillman
 standard of measuring capability pre-
 vails to but an extremely limited ex-
 tent. An administration whose course
 should suit that fire-eater would be a
 national calamity.

The British public is excited about
 a poet with a prod. It is clear that
 Kipling will never reach the laureat-
 ship on the strength of skill in flat-
 tery.

OBITUARY

Mrs. Wm. H. Adams.

The final summons came suddenly
 to Mrs. Wm. H. Adams, at her home,
 357 Lincoln avenue, about 11 o'clock
 last night. She had not been in good
 health and was confined to her bed
 a portion of the time, but was sitting
 in a chair at noon when a stroke of
 paralysis overcame her. No rally oc-
 curred and it became evident that liv-
 ing lease was short.

The maiden name of the deceased was
 Laura M. Timmons. She was a daugh-
 ter of Mr. and Mrs. T. O. Timmons,
 who reside at 361 Lincoln avenue, and
 was born September 2, 1852, in Ur-
 richsville. Her marriage to William
 H. Adams occurred in Canal Dover.
 In 1879 she came to this city, where
 she has since resided. Besides the
 husband, three children, Edward C.,
 Bessie E. and Mayme Adams, survive.
 There is also a sister, Mrs. Ted
 Brooks, and a brother, Fred Tim-
 mons, who reside in East Liverpool.

Mrs. Adams was a devout member
 of the Methodist church, and on ac-
 count of her kindly works had many
 friends. Arrangements for the funeral
 have not as yet been made, but the
 obsequies will be held some time Mon-
 day.

AT THE THEATER

A long laugh, set in smiles to the
 "Katzenjammer Kids" with the Blon-
 dells, is the attraction at the opera
 house tonight. It is presented by
 clever comedians, dashing soubrettes
 and a large chorus of pretty girls who
 can sing and dance and make the
 hours merry. The "Katzenjammer
 Kids" met with instantaneous success
 and is accepted in the east and west
 as a positive novelty in farce comedy.
 Edward Blondell, who has become
 famous for his bright and witty vaude-
 ville sketches, is the author. Messrs.
 Blondell and Fennessy, the managers,
 have placed it before the public with
 one of the strongest companies ever
 seen in farce comedy. Every member
 is selected for his line of work which
 embraces selection from grand to com-
 ic opera, vaudeville and drama. In-
 cidental to the play are unique and novel
 specialties.

Chester De Vonde and an excellent
 company will begin a week's engage-
 ment at the opera house, commencing
 Monday night. "Dr. Jekyll and Mr.
 Hyde," that weird and interesting story
 of Robert Louis Stevenson's, with
 Mr. De Vonde in the dual role, will be
 played. Mr. De Vonde will produce
 the authentic French version, which is
 the most remarkable and only specta-
 cular rendition of this strange play.
 An eminent critic has pronounced Mr.
 De Vonde's work in this most trying
 double role as the most finished of
 any other interpreter besides Mr.
 Richard Mansfield who created the
 part. Special scenery and novel
 lighting effects will be used.

We will be closed Tuesday and Wed-
 nesday of next week in order to mark
 down prices. Wait for us.

POTTERY NEWS

D. A. Hayes, president of the Glass
 Bottle Blowers' Association of the
 United States and Canada, and one
 of the vice presidents of the Ameri-
 can Federation of Labor, has been en-
 gaged by the National Brotherhood of
 Operative Potters to address a meet-
 ing of the working men of Trenton.
 Mr. Hayes will speak in Association
 hall in that city some time in Febru-
 ary. He is one of the most prominent
 labor leaders in America and has serv-
 ed several terms as the head of the
 glass blowers. He recently organized
 all the men employed in the glass
 houses in South Jersey and conducted
 their strike, which netted them a num-
 ber of reforms.

John Allmon, late foreman of the
 decorating department of the French
 China company at Sebring, has ac-
 cepted the position of salesman for
 that company, and is now out on the
 road. Charles Miller, formerly em-
 ployed as printer by this firm, is now
 filling Mr. Allmon's place in the dec-
 orating room.

The packers were off duty at the
 Chelsea plant at New Cumberland
 several days last week, on account of
 no packages, and all the time a ship-
 ment of empty barrels were lying at
 the uptown wharf. The steamboat
 had put them off at that point by
 mistake.

The new electric light plant at the
 Chelsea pottery at New Cumberland
 is ready to start, but is now waiting
 for some connections about the dyna-
 mo with the main shaft of the big
 engine.

Porto Rico is proving to be an inter-
 esting field for the scientists in the
 employ of the government, says the
 Washington Star. They have already
 discovered much that is new in plant
 and animal life on this island. Among
 recent discoveries are the finding of
 many new fresh water leeches, new
 sea crabs and shrimps and a peculiar
 class of crayfish, which seem to be in-
 termediate between shrimps and lob-
 sters.

The eyes of these little crayfish are
 not set in their heads, but grow on the

MONSTER IGUANA LIZARD FOUND ON MONA ISLE.

end of long stalks, sprouting forth
 from either side of the head. The
 limbs of these strange creatures resem-
 ble toothbrushes, being covered with a
 growth of something akin to hair.

The Smithsonian Institution has re-
 ceived a number of specimens of bird
 and animal life from Mona Isle, a
 strange rockbound island off the coast
 of Porto Rico. The island has a pec-
 uliar fauna. Most interesting objects
 are enormous Iguana lizards, which
 have been discovered in great number.
 These lizards are very much larger
 than those of Cuba and Mexico.

FRIENDS AND VISITORS

Homer D. Clark, of Third street,
 is seriously ill.

Robert Weigand and wife are spend-
 ing the day in Pittsburg.

John W. Moore, of Fifth street, is
 ill, threatened with fever.

Mr. and Mrs. John Thompson were
 Pittsburg visitors yesterday.

J. L. Athan has returned from a
 visit with his uncle at Dayton.

J. R. Wooley, depot clerk, attended
 the theater at Pittsburg last night.

TELEGRAM

Philadelphia, Pa., Jan. 9th, 1902.

Messrs. Abrams & Little,

Care Surprise Clothing House, East Liverpool, Ohio.

Bought the interest of Morris Lang in the Surprise
 Clothing House today, prepare to make big reduction in prices
 at once, will be home Friday Night.

ISAAC LANG.

Mr. Isaac Lang, the sender of the above telegram has been connected with the firm
 of Morris Lang & Co. almost from its first conception and owing to his able
 business qualifications has helped to make the Surprise Clothing
 House a household synonym.

THE SURPRISE CLOTHING HOUSE

has been for years one of the leading and most substantial clothing houses of this
 city, and there is no doubt but that the new firm will be even more success-
 ful than the old one. Those who have been patrons of the old
 house will continue their pleasant and profitable relations
 with the new firm, while many new customers
 will be added by the extraordinary in-
 ducements that will be offered.

It is the intention of the management, according to the above tel-
 egram, to

Immediately Convert as Much Stock

As Possible Into Ready Cash

and buyers who have the interests of their pocketbooks and bank ac-
 count in mind will watch for the early big cut price announce-
 ments which will be made shortly by

THE SURPRISE CLOTHING HOUSE

WELLSVILLE

THE SEWER BREAK

Mr. Brannan Places Responsibility for It to Council—Commission Meeting.

The sewer commission met in the city engineer's office last evening, but was not called to order owing to the absence of a member. Nevertheless several matters of importance were presented and discussed. Mr. Bowers presented a communication which he had received from Mr. Riggs, of the Riggs & Sherman company, of Toledo. In the letter Mr. Riggs stated that had the plans submitted to the city engineer by them been adhered to the sewer break in the storm sewer on Sewer street would never have occurred.

The plan, stated Mr. Riggs, provided for a grade two feet lower than the one in use. Mr. Brannan accused the city council of being responsible for the demolished sewer. He said that it was through the influence of two members of council that the grade was changed by Engineer White.

Clerk Snowden was not ready to file his final report and the members decided to meet again next Monday evening.

At this meeting several resolutions will be presented, one of which will be to thank the council for the courteous way in which they dismissed the commission.

FLAT DISOBEDIENCE

Of the Wishes of the Principal Alleged to Have Been Shown By High School Seniors.

Rumors are rife of trouble in the high school. It is said that a misunderstanding in regard to money in the treasury of the senior class and how it shall be expended has led to a controversy that may have serious consequences.

The seniors, according to custom, decided to use money which had been gained by entertainments in buying a class pin for each member of the class, but it is alleged Miss Ruby Mason, the principal, strenuously objected. Yet the seniors, contrary to her wish, bought pins for themselves out of the treasury fund. The end can only be conjectured. There has been talk of taking the matter before the board of education, but a member of that body said yesterday that he could not see how the board was concerned.

A SKATER'S MISHAP

Arthur Steele, Aged 14, Fell on the Ice, Badly Breaking His Arm.

Arthur Steele, the 14-year-old boy who recently had the end of a finger severed in the shops, very unfortunately met with another accident yesterday.

He was skating on the pond on the fair ground when he slipped and fell violently, breaking his right arm in two places. As a result of the accident he is in a badly crippled condition.

Thank Offering Meeting.

The Woman's Home Missionary society of the Methodist Episcopal church held a thank offering meeting in the church last evening. Over \$25 was subscribed for the furthering of the cause and the membership was increased quite materially. Rev. C. E. Clark, pastor of the church, delivered a very interesting and instructive address on missions and their work.

New Era Club Meeting.

At the home of Miss Goldie Murdoch the New Era club will meet this evening. The following program will be executed: Quotations, Bryant; Causes Which Led to the Revolution, Mrs. Phillips; paper, Benjamin Franklin, Miss Arnold; Revolutionary War, the club, Leader, Miss Grace Parke.

A Painful Injury.

Tucker Lyons, while at work in the West End shops, received painful injuries to his left cheek. He was helping in the blacksmith department when a piece of metal was blown from a forge and struck his cheek bone, inflicting an ugly wound. He will be laid up for several days.

A Profitable Meeting.

The union meeting today of the churches that are observing the week

SOUTH SIDE

MANY ARGUMENTS

ENLIVENED THE WORK OF THE CHESTER COUNCIL.

Train Running Ordinance Modified. Several Bills Debated And Ordered Paid.

Lengthy debates and heated arguments helped to swell the enthusiasm and excitement displayed by the councilmen of Chester at the meeting last evening. When the ordinance providing for the operation of trains within the city limits was presented for its last reading and final passage serious objections were made by several members.

At the conclusion of the reading one member had difficulty in getting the floor. He stated that as the railroad company had submitted a letter asking that sections 1 and 5 1-2 be changed and eliminated, he thought that the request should be complied with.

As a result of his speech council ordered that the rate of running trains should be increased from six to eight miles per hour and that the section which prohibited the use of flying switches, be obliterated from the ordinance. The ordinance was then passed.

A bill of Engineer J. C. Boyd, amounting to \$77.95, was ordered paid after considerable wrangling. Councilman Riley thought that the engineer should have more thoroughly itemized his bill, but Recorder Marshall convinced Mr. Riley that the work had really been done by the engineer and that the money was due him. Mr. Riley again remonstrated when the bill of C. A. Smith was presented, holding that \$154 was too much to pay a man or an organization of men for the work connected with the incorporation of Chester.

City Solicitor Marshall, of New Cumberland, was present and explained in detail the work attached to an incorporating committee, but Mr. Riley remained obstinate and voted against the payment of the bill. The remaining councilmen thought the bill very reasonable and ordered a warrant drawn on the city treasury for the full amount.

J. J. Marshall was compelled to state how many days he worked and in what manner he put in the time when assessing the city property before his bill of \$16.65 was allowed.

Commissioner A. G. Pugh was for the third time ordered to submit an itemized account of his work during the year 1901. The auditing committee agreed to assemble in the city hall next Tuesday evening for the purpose of examining the recorder's books.

Council appointed a committee to purchase a safe which will be used as a protection of the valuable city documents against burglars and fire.

COAL DEAL PROGRESSING

A. C. Pugh, of Hookstown, Is Confident That It Will Go Through.

A. C. Pugh, the coal magnate of Hookstown, was a business visitor in Chester today. He held a conference with 'Squire Johnston in regard to the 15,000 coal deal in which he and Mr. Johnston are interested.

It is stated that they will undergo no difficulty in securing options on the coveted land, as the owners are very anxious to realize a nominal sum of money for the coal which underlies their land.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. For free illustrated booklet write S. K. Hooper, R. P. & T. A., Denver, Col. 8-tf-4-tf

NATURE'S ENERGY.

Possibilities of Utilizing Heat of the Earth's Interior.

New methods of utilizing nature's energy constantly are being discovered, and doubtless the future has in store greater discoveries than yet have been made. T. C. Mendenhall in Cassier's Magazine writes of the stored energy of the heat of the earth's interior and the possibilities of using it as a source of power. He says:

"The stored energy of the heat of the earth's interior is beyond power of calculation, and some not entirely unsuccessful attempts to utilize this have already been made. From a short distance below the surface the temperature increases downward at an average rate which indicates that at a depth of fifty miles it is not less than 5,000 degrees F., and there is abundant reason for believing that the earth is an intensely hot body with only a thin layer of poorly conducting, cold surface matter.

"These are the essential conditions of a heat engine of enormous capacity, and as in many parts of the world comparatively high temperatures are found very near the surface, while in all parts considerable ranges are possible within reasonable differences of level, the interior heat of the earth, which has an origin more remote in time than the sun or its own axial rotation, is worthy of most serious consideration as a possible and reasonable source of power.

"Its importance will be greatly enhanced when we are able to transform heat energy directly into electricity on a large scale and with economy, avoiding the great waste which necessarily accompanies the use of the steam engine, and this must soon come about."

5 PER CENT BONDS

Announced as the Form of Carnegie's \$10,000,000 Gift.

PURPOSES OF THE DONOR.

Stated by Himself, in Request Sent to Different Persons to Become Members of Board of Trustees. Some Men Elected by Incorporators.

Washington, Jan. 10.—Official announcement was made of the board of trustees of the Carnegie institution, which has been incorporated here under the \$10,000,000 gift of Andrew Carnegie. The only indication as to the form of the gift is that it will be in "five per cent bonds."

The announcement was made in the form of a statement given out by Dr. Charles Walcott, Secretary of the incorporators. Its contents were in part: The board of trustees elected by the incorporators are given. The ex-officio members are: The President of the United States, the President of the United States Senate, the Speaker of the House of Representatives, the Secretary of the Smithsonian Institution, the President of the National Academy of Sciences. Among the other members are Grover Cleveland, William N. Frew, Lyman J. Gage, Daniel C. Gilman, John Hay, Seth Low, Wayne McVeagh, Ellhu Root, Andrew D. White, Chas. D. Walcott and Carroll D. Wright.

The board of trustees will meet to organize and elect officers in the office of the Secretary of State, on January 23.

Mr. Carnegie's Purpose.

Mr. Carnegie's purpose, as stated by himself, in requesting the various trustees to become members of the board, is as follows:

"It is proposed to found in the city of Washington, in the spirit of Washington, an institution which, with the co-operation of institutions now or hereafter established, there or elsewhere, shall, in the broadest and most liberal manner encourage investigation, research and discovery, encourage the application of knowledge to the improvement of mankind; provide such buildings, laboratories, books and apparatus as may be needed, and afford instruction of an advanced character to students whenever and wherever found, inside or outside of schools, properly qualified to profit thereby."

Among its aims are these:

"First. To increase the efficiency of the universities and other institutions of learning throughout the country by utilizing and adding to their existing facilities, and by aiding teachers in the various institutions for experimental and other work in these institutions as far as may be advisable."

"Second. To discover the exceptional man in every department of study whenever and wherever found, and enable him, by financial aid to make the work for which he seems specially designed, his life work."

"Third. To promote original research, paying great attention thereto, as being one of the chief purposes of this institution."

"Fourth. To increase facilities for higher education."

For Those Desiring Washington.

"Fifth. To enable such students as may find Washington the best point for their special studies to avail themselves of such advantages as may be open to them in the museums, libraries, laboratories, observatory, meteorological, piscicultural and forestry schools and kindred institutions of the several departments of the government."

"Sixth. To insure the prompt publication and distribution of the results of scientific investigation, a field considered to be highly important."

"These and kindred objects may be attained by providing the necessary apparatus for experimental work, by employing able teachers from the various institutions in Washington or elsewhere, and by enabling men fitted for special work to devote themselves to it, through salaries, fellowships or scholarships, or through salaries with or without pensions in old age, or through aid in other forms to such men as continue their special work at seats of learning throughout the world."

TO CONSIDER THE BIBLE.

Pope Appoints a Commission—An American One Member.

CONSUMPTION

Right food—right medicine—right time—these three things are of the utmost importance to the consumptive. Right food and right medicine—these are contained in Scott's Emulsion of pure cod-liver oil. Right time is at first sign of disease. Right time is now. Scott's Emulsion always helps, often cures. Ordinary food helps feed. Fresh air helps cure. Scott's Emulsion does both. Begin early.

We'll send you a little to try, if you like.

SCOTT & BOWNE, 409 Pearl Street, New York.

ABOLISH the TREASURY

By A. S. STICKNEY, President of the Chicago Great Western Railway Company

IT IS MY CONVICTION THAT THERE IS NO SAFETY AND CAN BE NO SAFETY TO FINANCIAL AFFAIRS IN THE UNITED STATES UNTIL THE TREASURY IS ABOLISHED; but, at the same time, we must not close our eyes to the fact that it has become an integral part of the banking system and cannot be safely destroyed until a central reserve bank has been developed. Otherwise the duty of protecting the gold reserve from exportation would fall upon 4,064 national and 5,648 state banks and institutions.

THE IMPOSSIBILITY OF MORE THAN 9,000 SEPARATE BANKS PROTECTING THE GOLD RESERVE AGAINST EXPORTATION WOULD NECESSITATE A CENTRAL RESERVE BANK.

Such is the central bank which I advocate, a bank produced by evolution and controlled by the natural laws of trade, INSTEAD OF A BANK CONTROLLED BY PARTISAN, ILL CONSIDERED AND COMPROMISE LEGISLATION.

Under free banking laws many and perhaps a majority of the present banks would continue to conduct local, independent banks for an indefinite period. Being free, they could continue their independent banks as long as they saw fit.

faia Segna, prefect of the vatican archives, and Vives y Tute, as assessor. Among the consultants chosen from the various countries is Prof. Garrigan, of the Catholic university at Washington. The scope of the inquiry is to ascertain the limits of freedom to be allowed the Catholic exegetist in biblical questions of the day and to point out definitely what must be maintained and what must be rejected in the interests of orthodoxy, what are allowable and what are left to the individual conscience.

The commission, notably the president, is said to represent broad-minded, progressive tendencies.

MANY FILPINOS ARE IDLE.

Root Said to Have Blamed Spooner Amendment—Cause of Some Hostility.

Washington, Jan. 10.—Secretary Root gave an interesting exposition of the condition of affairs in the Philippines, in the course of a hearing yesterday before the House Committee on Military Affairs, in connection with the army appropriation bill. The meeting was behind closed doors and no exact statement of Mr. Root's remarks were given out. The Associated Press furnished a statement of what was understood to embody the more essential features. This statement contained the following in part:

The discussion of the Philippine conditions was brought out by a question by Mr. Hay, of Virginia, as to whether civil government could be maintained in the islands without the presence of an army. In reply Mr. Root stated that the army was necessary as a moral force to maintain the civil administration now established. One of the main causes, he said, why there had not been more progress in the Philippines was that the Spooner amendment passed by Congress last year and restricting the grant of franchises had the effect of preventing the investment of capital, and the consequent employment of labor.

Many people were idle, and many of these became conspirators simply because they were idle.

Mr. Root pointed out that even in provinces where civil government had been a success there were men conspiring to assist in the agitation and warfare carried on in neighboring provinces. On the whole, however, the Secretary expressed the belief that if Congress enacted the bill proposed by Senator Lodge, or that of Representative Cooper, of Wisconsin, providing systems of laws for the Philippines, it would be possible soon thereafter gradually to reduce the military establishment in the Philippines. He did not believe it would be rapid or complete termination of military rule. Mr. Root said that better progress had been made in the last year than had been expected, and he expressed the opinion that civilization ultimately would be extended to the people of the islands.

BRYAN WELL RECEIVED.

Cheered in Boston—Held Reception, Guest at a Banquet.

Boston, Jan. 10.—Hon. William Jennings Bryan arrived in Boston yesterday afternoon from New Haven to be the guest of the Commonwealth club.

There was a large crowd at the station to see the distinguished visitor, and when he stepped from the train and passed along the platform he was loudly cheered. He was recognized on the street and heartily greeted.

At 6:30 o'clock Mr. Bryan held a reception at the Quincy and many men of political and business prominence paid him their respects.

Following the reception a banquet was served to the company, and Mr. Bryan was again the central figure.

EX-OHIOAN SUES DOWIE.

Former Mansfield Man Charges Alienation of Wife's Affections.

Chicago, Jan. 10.—Benjamin F. Williams, formerly a school teacher in Mansfield, O., and once a follower of "Dr." John Alexander Dowie, began suit in the circuit court of Cook county for damages in the sum of \$50,000 against "Dr." Dowie and Elders John G. Spelcher and Cyrus B. Fockler, of the Christian Catholic Church of America for alleged conspiracy to alienate his wife's affections.

Williams alleges that through the teachings of Dowie and his followers, Edith R. Williams was influenced to treat him as a stranger. He avers that the cause of this influence was that he did not contribute tithes to Dowie's numerous business enterprises.

SIR THOMAS LIPTON'S FOE.

Lady Henry Somerset Sides With Labor Against Yachtsman.

Sir Thomas Lipton, although personally popular and supposed to have prospects of promotion to the British peerage owing to the king's friendship for him, is having trouble of his own just now. Society seems to be taking a great deal of interest in the welfare of his employees, and some of the society papers are collecting evidence of the charges that women in the Lipton factories are subjected to many indignities besides being underpaid.

Arrayed against Sir Thomas are Lady Dilke, Lady Henry Somerset and

LADY HENRY SOMERSET.

the beautiful Countess of Warwick in the contest that is coming over the wages that he pays his army of cheap labor. Lady Somerset is president of the Working Women's league.

In Lady Henry Somerset the famous yachtsman will find a formidable foe. She is an inveterate reformer and is almost as well known in America as in England. She was the bosom friend of Frances Willard and is one of the great apostles of temperance.

A WIDESPREAD BOOM IN PEDESTRIANISM.

New York the Next City to Hold a Walking and Running Contest.

Pedestrianism seems to be forcing its way back into public favor. The splendid sport, which "flourished as the green bay tree" a score of years ago, is deserving of a revival, and it is not surprising that promoters throughout the country have started the good work along Philadelphia, Pittsburg and Rochester have held interesting matches, and now New York falls in to line.

Kennedy and Powers of New York, who conducted the recent successful six day bicycle race in New York, have arranged to hold a 60 as you please contest in Madison Square Garden Feb. 9, and the entries have poured in so rapidly that the managers are puzzled over the problem of providing running space for the contestants. The race is to continue for six days.

PETER HEGELMAN, THE FAMOUS OLD "PED."

The coming race will be something of an innovation. In the old days a man could stay on the track as long as he pleased, but the present law in New York state will allow a man to compete only twelve hours each day, and this race will therefore be held under the same conditions as the recent six day bicycle race.

It will undoubtedly prove a more grueling contest than the old six day walking matches, for it will mean a dog trot all the time and will have to change every half hour.

In this race will be seen several men who were famous in the one hundred and forty-two hour struggles in New York city more than a decade ago. They are Frank Hart, considered the nearest walker that ever stepped in a shoe; George Cartwright, a very graceful runner; Peter Hegelman, famous for his immense stride; Noremec, the plucky little Scotchman, whose real name is Cameron, but who spells it backward when he competes; Peter Golden, who has a smile when in a race that no amount of fatigue can obliterate; "Old Sammy" Day, who in the old days was wont to keep the spectators in a roar by his witty sallies and cockney songs, and Gus Guererro.

The presence of these old campaigners will recall to many a spectator the heyday of the sport, when Rowell, Fitzgerald, Albert and Littlewood made thousands of dollars. Rowell won \$27,000 in one race at Madison Square Garden and carried back to England the sum of \$44,000 as the result of two races in New York. He is a small, broad shouldered fellow and probably the pluckiest runner that ever trod the sawdust track.

In one of the big races at the Garden he trotted sixty-two miles without a break, with the wild eyed "Lepper" Hughes at his elbow, and covered 150 miles in the first twenty-four hours. Rowell still holds the world's records from 90 to 383 miles.

The greatest struggle ever seen at the Garden was when the lanky Fitzgerald beat Rowell. For the last three days the men were practically together, and the entire city was frantic with excitement. Wall street men met at the Garden every night, and thousands of dollars changed hands on the result.

The crowd at the Garden during those days has never since been equalled in the big arena, and Fitzgerald won a good sized fortune. He afterward became an alderman and staid citizen of Long Island City, N. Y.

Rowell is now a prosperous innkeeper in England. George Cartwright, who will be seen in the approaching race, still holds the professional records for fifty and sixty miles.

All the old timers entered in this race are still strong, healthy looking men, and with a big prize as an incentive they will undoubtedly train hard and give the younger men in the race a hard task to beat them.

The best of the new blood appears to be Stokes, Tracy, Cavanaugh, Hegelman, Hjerther, Glick, Dean and the Seneca Indians, Frank and Jerry Pierce.

For time cards, rates of fare, through tickets, baggage checks, and further information regarding the running of trains apply to ADAM HILL, Passenger and Ticket Agent, East Liverpool, Ohio.

McCREARY IS CHOSEN

By Kentucky Democrats As
Their Candidate For U.
S. Senator.

EQUIVALENT TO AN ELECTION.

Smith and Wheeler Withdrew—Cantrill Stayed in For Complimentary Vote—Brief Sketch of Prospective Senator's Career.

Frankfort, Ky., Jan. 10.—Standing in the rostrum of the old hall of representatives of the Kentucky capital where nearly 30 years ago he began his public career, James B. McCreary last night accepted the nomination of the Democratic party to the United States Senate. He received the nomination by a vote of 62 to 37 over Circuit Judge James E. Cantrill, over Scott county, nearly two-thirds of the Democratic members. He will be elected by the general assembly in joint session on Tuesday of next week over Senator Deboe, who was endorsed by his party for re-election. The Democratic caucus was harmonious throughout, the only surprise being that occasioned several hours before it convened by the withdrawal of Congressman Charles K. Wheeler and Congressman David H. Smith, who have been in the contest for the past year. They withdrew only when it became apparent that McCreary would be nominated, and Judge Cantrill remained in the race only to receive a complimentary vote. The nomination was afterward made unanimous. A special committee notified the nominee of the action of the caucus. He accepted the nomination in a few words, and pledged himself to his constituents and to his country.

Sketch of McCreary's Career.

James B. McCreary surrendered with a Kentucky regiment to Grant at Appomattox, being at that time a lieutenant-colonel. He entered politics in 1866, being chosen to represent Madison county in the Kentucky Legislature. In 1875 he was elected Governor on the Democratic ticket. After retiring from the executive office he was elected to the Forty-ninth Congress and re-elected to the Fifty-first, Fifty-second, Fifty-third and Fifty-fourth Congresses. Governor McCreary was appointed by the President of the United States in 1892, one of the five commissioners to represent the United States in the International Monetary Conference. In that conference he distinguished himself as an advocate of bimetallism.

CUNTS SALUTE LIBERTY BELL.

Welcome Given the Historic Relic on Its Arrival at Charleston, S. C.

Charleston, S. C., Jan. 10.—The Liberty bell under the escort of Mayor Ashbridge and the delegation from the Philadelphia council, arrived yesterday at 10 o'clock from Savannah. The train was met at the station by Mayor Smythe and the board of al-

dermen of Charleston, and President Waggoner and the directors of the Charleston Exposition company. A detachment of regulars from the artillery post and several companies of marines from the camp at the exposition with a regiment of militia, was drawn up at the station when the train bearing the bell rolled in. As the bell was lifted from the flat car a salute of thirteen guns was fired. The historic relic was placed on a decorated truck prepared for the occasion, but it was found that the wagon would not bear the weight, and the bell had to be replaced on the car and taken to the grounds by rail. At the exposition grounds Mayor Smythe extended a formal welcome to the bell and its escort, and Mayor Ashbridge responded. Several brief addresses were made and patriotic airs were sung by 2,000 school children. The bell will be placed in the Philadelphia building.

MANHATTAN PRINCIPAL STAY

Of Market During Time of Resistance to Decline—Some Features of Market.

New York, Jan. 10.—Speculation came to a halting place yesterday and showed much hesitation about branching out into new courses. The sharp upward movement in the latter part of Wednesday's session was evidently due to a drive against the shorts which were put out in the course of speculative liquidation on previous days. In the absence of important new developments the stock market followed the normal course in the culmination of a speculative movement, the price vibrations becoming less by degrees. There were efforts, which persisted during the greater part of the day, to contest the dropping tendency of the market, and to continue Wednesday's recovery. The marking up of special stocks was the device resorted to. It was not very effective at any time, although there was a rally one time which generally wiped out earlier losses. In the late dealings, however, when the futility of the efforts of the bulls became apparent, tired holders began to throw over stocks. Prices went to the lowest point of the day and generally closed there. St. Paul was under severe pressure and lost 2 1/2. Declines of between 1 and 2 points are numerous among the prominent stocks. The principal stay of the market during the time of resistance to the decline was Manhattan. This stock was taken on an enormous scale by brokers who have been active in it ever since the present advance began. They made it touch 140 1/2, an extreme rise of 4 1/2, after which it reacted, closing with a net gain of 2 1/2. The running of the first experimental train by electricity over one of the company's lines was the ostensible cause of the stock's strength. Metropolitan Street Railway and Brooklyn Transit, the latter in a small degree, were affected in sympathy. There was a strong advance of 7 1/2 in Pittsburgh, Cincinnati & St. Louis on supposed prospects of larger dividends, and some of the junior Vanderbilts were affected in a similar way. Sugar, after an early decline, had its period of strength under operations by a speculative combination, based on expectation of a remission of sugar duties. The stock afterwards weakened to the lowest and closed at a net loss of 2. The action of U. S. Steel stocks has proved a great disappointment to a large element among professional speculators who have been looking for a sustained rise in those stocks, and an aggressive bull leadership of the market. Both classes of stocks were sold yesterday both for home and foreign account. The hostile steps still in prospect against the Northern Securities company continued a repressive influence. The market has lost its stringent tone, but renewal of supplies is by no means so abundant as expected. Bonds were dull and irregular. Total sales, par value, \$3,630,000. U. S. Ref. 2s coup advanced 1/4 per cent on the last sale.

TWO DEAD; ONE MAY DIE.

Others Injured in Powder Mill Fire, Near Clearfield, Pa.

Clearfield, Pa., Jan. 10.—The Rickety non-explosive powder company's mill near here was destroyed by fire.

The Dead.

John C. Stewart.
Roy Smith.

The Injured.

G. B. Roseberry, may die.
James Blacker.
F. K. Steneyner.

It is supposed an explosion preceded the fire. Stewart's body was found in the ruins of the burned mill, the limbs having been burned from the body.

LABOR LEADERS ENTERTAINED
Lunched at the White House—Knox and Wilson Present.

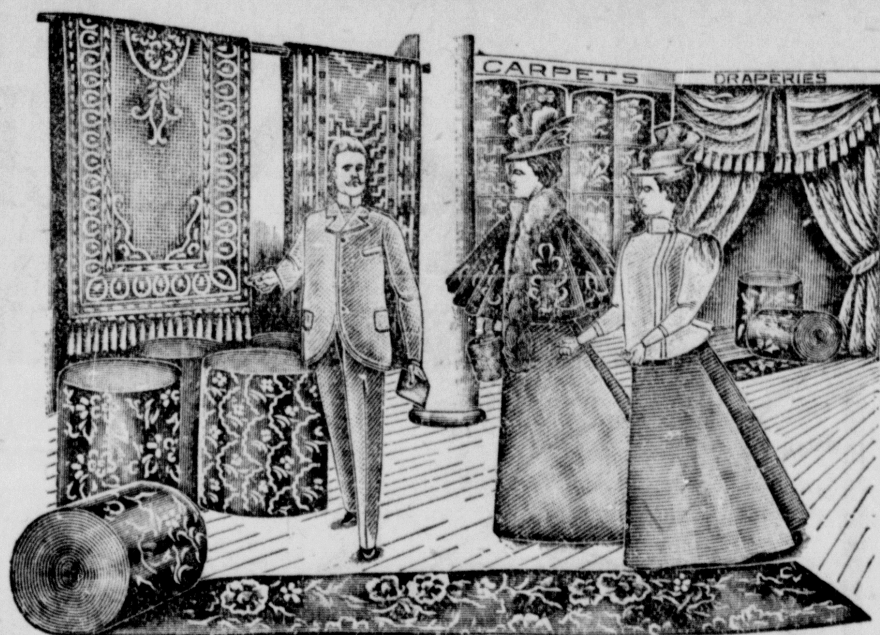

Washington, Jan. 10.—The President had with him at luncheon yesterday the Attorney-General, the Secretary of Agriculture, and a notable gathering of representatives of organized labor. They were F. P. Sargent, chief of the Brotherhood of Locomotive Firemen; E. E. Clark, grand chief conductor of the Order of Railway conductors; P. H. Morrissey, grand master of the Brotherhood of Railway Trainmen; H. B. Perham, president of the Order of Railroad Telegraphers, and A. B. Youngson, first assistant to P. M. Arthur, chief of the Order of Locomotive Engineers.

AN EX-GOVERNOR

SENTENCED TO PRISON

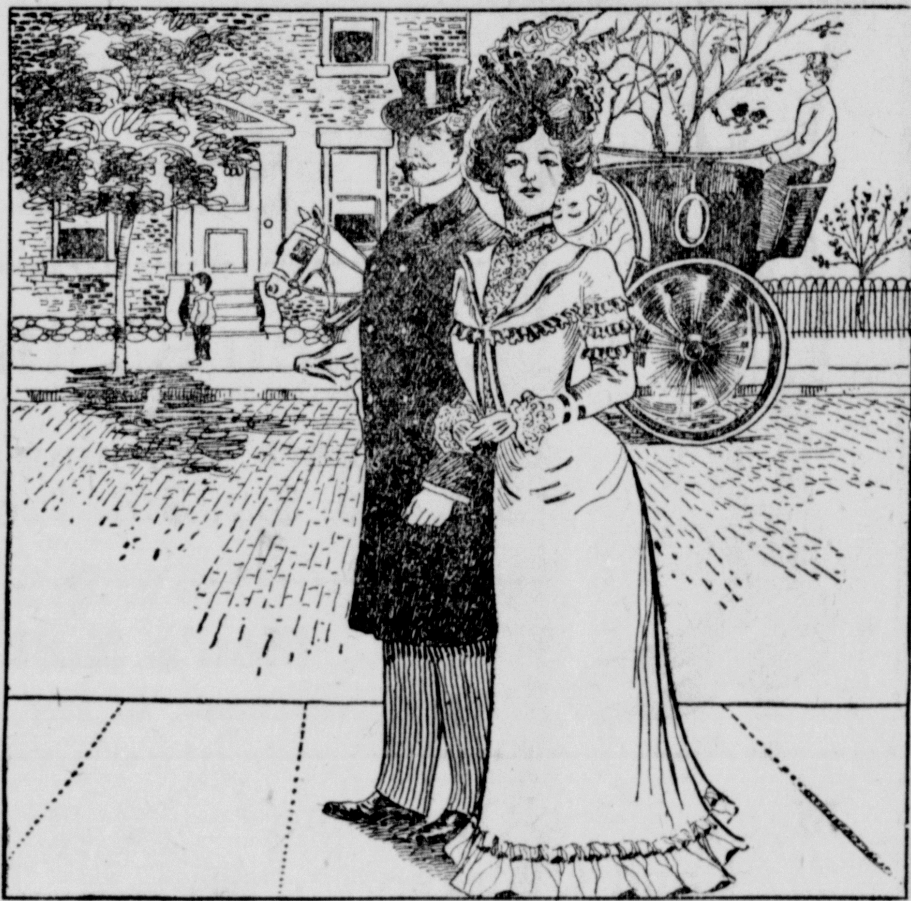

Boston, Jan. 10.—Admitting that his picture was in the rogues' gallery, and that for a period of years he has been familiar with the lowest depths of New York opium joints, yet pleading for mercy from the court, Franklin J. Moses, once governor of South Carolina, was sentenced here to four months' imprisonment for the larceny of an overcoat.

ASK LEWIS BROS. ABOUT IT.

WHERE IS THE BOY THEY SEEK?

WANT TO BE AMERICANS.

Many St. Croix Inhabitants Cable Minister of Finance and Rigsdag.

St. Thomas, D. W. L., Jan. 10.—The following cablegram, signed by a large number of residents of the Danish West Indies, was sent from the Danish Island of St. Croix to the Minister of Finance and the Rigsdag at Copenhagen on January 3:

"Confirming the memorial of His Majesty, King Christian, of June, 1900, the undersigned planters, representing 38,000 acres out of a total of 50,000 acres, and merchants and other representative inhabitants of the Danish West Indies, assert that if the American market is not secured by the sales of the islands, the sugar industry here will suffer severely and will have to cease in the near future, the prices for sugar now ruling being below the cost of producing that article."

Subsequent signatures secured to this message raised the ratio of representation to nine-tenths of the total acreage under cultivation.

WAS SCHLEY VERDICT LEGAL?

Knox Considering This Phase of Case. On This Depends President's Review.

Washington, Jan. 10.—The Post was expected to say today: The case of Rear Admiral Schley is now being considered by the Attorney-General for the purpose of discovering whether there was any illegality in connection with the court of inquiry. It is understood that at the recent conference between the President and Rear Admiral Schley the latter pointed out some alleged violations of law in regard to the court, and these matters have been deemed worthy of examination. The Attorney-General is not to pass upon the merits of the case, but will deal solely with its legal phase. If he shall find that the court was properly constituted, that the precept was legally drawn, and that the rules of law were followed as to the evidence, it will then be within the province of the President to consider the case upon its merits. If the Attorney-General decides that there were illegalities, as claimed by Admiral Schley, it is understood that Admiral Schley's future course concerning a formal appeal in writing to the President will depend very largely upon the decision of the Attorney-General.

NOT TO PENN'A OR WABASH.

Denial of Sale of West Virginia Central—Will Meet Wabash at Parkersburg.

Baltimore, Md., Jan. 10.—The Evening News yesterday has a statement from C. H. Livingston, private secretary to Senator Elkins, of West Virginia, in which he is quoted as reiterating that gentleman's denial of the alleged sale of the West Virginia

Central railroad to either the Pennsylvania or Wabash systems. He explains the reported sale as follows: "Our westerly extension will be to the Little Kanawha river to connect with the Little Kanawha River railroad. The latter will take the West Virginia Central to Parkersburg, where it will meet the Wabash railroad. The Wabash has completed its plans to build to Parkersburg, and has let a contract for the construction of a bridge across the Ohio river at that place, and approaches to cost \$1,000,000."

Ohio Man Appointed.

Atlanta, Ga., Jan. 10.—Warden Hawk, of the Federal prison, was notified by Attorney-General Knox that Bradford C. Rawson, of Columbus, O., had been appointed warden of the Atlanta prison, which will be opened in a few days.

WEATHER FORECAST:

Western Pennsylvania—Cloudy today, probably rain or snow tomorrow; fair, colder in southern portion, light to fresh westerly winds.

Ohio—Fair Friday, except possibly light snow in extreme northeast portion; tomorrow fair, colder in south portion; light to fresh westerly winds. West Virginia—Fair today; tomorrow fair, colder; winds shifting to northwest.

BISHOP J. W. HOTT

DIED AT DAYTON, O.

Dayton, O., Jan. 10.—Dr. J. W. Hott, one of the most prominent divines of the United Brethren church, died here yesterday. He was for 12 years editor of the Religious Telescope, the official church organ of that denomination, and for the last 12 years a bishop in the church. The funeral will be held here next Monday.

Charged With Murder.

ASK LEWIS BROS. ABOUT IT.

The Lone Yuletide.
Where spend ye the eve of the Holy One's birth,
Oh, child who hast wandered away from my hearth?
The joy of the Christmastide fills all the earth;
Where pass ye the Yule of the year?

There stands a lone fir in the field of the dead,
Bedecked with frost tinsel beside the white bed;
For candles the glint of the stars overhead,
But still is thy chamber and dream.

If one of yon stars could but guide me to thee,
I'd follow its beams to the uttermost sea;
I'd hang thee my gifts on some paradise tree
If death would but let me anear.

O mother of Christ, by the love that ye bore
The Bethlehem babe, by the Christ ye adore,
Oh, find ye my motherless child, I implore,
And give her thy love's Christmas cheer.
—Harper's Weekly.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Born—To Mr. and Mrs. Fred Headley, Trentvale street, a son.

Has Sold Out—Frank E. Conkle, who for the past 16 years has conducted a milk and dairy business on Third street, has disposed of his interests.

An Evangelist Coming—Dr. E. F. Dunham will arrive in the city the middle of next week for the purpose of conducting gospel meetings at the First M. E. church.

K. of C. Organized Here—P. A. Gavin, of Toronto, is in the city visiting friends. Mr. Gavin is a state officer of the Knights of Columbus and is devoting considerable time to this work.

Teachers' Meeting—At the teachers' meeting this afternoon Supt. W. W. Boyd, of Painesville, and Dr. Wm. E. Smyser, of the Ohio Wesleyan university, addressed the teachers. Dr. Smyser speaking on "Literature."

Gift From Missionary Society—The ladies of the Home missionary society of the M. E. church yesterday sent a large barrel of clothing to a destitute minister and his wife and four children who live in a small town in North Carolina.

An Unsafe Embankment—Excavating on Grant street has left a menacing embankment, and complaint has been made that a cavein is liable to occur and seriously injure pedestrians. A large number of children pass the unsafe bank to and from school daily and solicitous parents are behind the kick to have the spot changed.

A Colored Lecturer—Prof. William Edwards, colored, of Washington, D. C., lecturer and traveler, is located for a few weeks at Mr. Matthews'. If possible he will lecture here on "Europe, As Seen With a Negro's Eyes." Three years of foreign travel enable Prof. Edwards to deliver a very entertaining discourse. Press notices in the Steubenville papers are highly complimentary to him.

Will Entertain.

Miss Elizabeth Anderson, of the East End, has issued invitations for this evening.

Miss Fannie Bertele, Sixth street, will entertain friends next Thursday evening.

Miss Elizabeth Anderson will entertain a number of her friends at her home on Wedgwood street, East End, this evening from 7 to 11.

Men's pure linen handkerchiefs, with or without hem, were 15c to 20c, in this sale at..... **10c**

RIVER INTERESTS

QUESTION OF IMPROVED NAVIGATION A LIVE ONE.

All Along the Ohio Agitation for Government Work is Growing.

The river has been at a stationary stage of 8 feet for two days, and there is a continuance of good packet water. Floating ice is not impeding navigation.

Boats are arriving with fair regularity, but the Lorena, which was due yesterday noon, did not arrive yesterday as expected and Mr. Martindill received no dispatches as to her whereabouts. She had been caught in the ice below, but was supposed to have been repaired and able to start up this week.

The Greenwood was up and the Ben Hur came down late last night. A considerable amount of freight is being handled and East Liverpool continues to hold her own as one of the best points for shipping along the river.

Proprietor Gus Martindill has now occupied his new quarters at the lower

end of the wharf boat. His office is nicely carpeted and cozy. Carpenters commenced the work of remodeling the upper deck. The old waiting room and office are being turned into living apartments. A kitchen, dining room, parlor and sleeping rooms. The small pained windows are being changed to modern windows and other alterations are taking place. Painters have also begun the first coat on the exterior of the boat.

Towns along the river are agitating congressional action on the improvement of the upper Ohio, which would be invaluable to summer shipping. A citizens' meeting was held in Beaver Thursday evening to discuss the topic. To give a depth of water sufficient for the larger river boats at all seasons between Cincinnati and Cairo it is estimated by engineers that 98 dams are necessary. These would cost almost that many millions in money, but any partial number of dams on the upper river will be beneficial. A feeder favored by engineers in supplying water is to have a well located canal constructed between Beaver and Lake Erie.

East Liverpool needs navigation more than her sister towns above, for the Pennsylvania company furnishes

the only inlet by rail, and all year navigation would make the big corporation less dictatorial in freight rates.

The News Review for all the news.

THE PILED UP AGONY OF YEARS can be relieved immediately, and quickly cured, by something from our stock of

DRUGS AND MEDICINES. It is only a question of getting the preparation which is best suited to the individual. In our line of Patent Medicines are certain cures for Catarrh, Dyspepsia, Neuralgia, etc. By taking the right one an end is put to pain and suffering.
